FOREWORD

TO THE TRADE:

We submit to the trade our 1937-1938 illustrated catalog.

Please examine this book carefully, which is a fair representation of our lines. Merchandise shown will compare favorably in quality with any on the market, and our prices are fair and consistent with our quality.

See separate net price lists for floor coverings and window shades.

Following strict adherence to a sound policy, without sparing of time, effort or money to make all of our dealings with the trade entirely satisfactory, William Volker and Company solicit your liberal patronage with the assurance no pains will be spared to secure prompt and satisfactory execution of your order.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

Good products build great factories. Volker-Western is the largest Window Shade organization in the world, which makes possible standardization of products, uniformity, lower manufacturing costs, resulting in ever dependable qualities and values.

ALL OUR SHADES ARE
MADE "FULL
FINISHED LENGTH"

Luxor X (Cleanable Cambric) Window Shading Plain and Duplex Colors

What a comfort! . . . to be able to choose window shades which harmonize gracefully with other furnishings . . . and, having chosen them, to know that they will be as useful as they are attractive . . . that they will retain their colorful freshness . . . that cleaning with soap and water will not lessen their hardy beauty . . . that their firm, closely-woven unfilled material will withstand sun and dampness . . . that their soft colors will always be restful, never jarring.

Add to all these qualities opacity, so desirable in keeping the sun's glare from sensitive eyes . . . in protecting expensive furnishings . . . in insuring privacy . . . and you have a perfect shade, for utility and charm.

These are the unequalled assurances which you have when you possess Luxor-X handmade window shades.

You may choose from a variety of colors, from a delicate cream to rich, forest green. Choose just the colors you need to complete the ensemble of every room . . . and you will enjoy for many a season the feeling that your windows are exquisitely dressed. Made in widths 36 to 150 inches.

Luxor Hand Tinted Cambric Window Shadings Plain and Duplex Colors

Luxor is the name that identifies our best quality window shade cloth. The quality of manufacture, the lasting colors and the resistance to wear are the features that have given Luxor its wonderful popularity. Luxor is the cloth that is being used today by the best architects and interior decorators both at home and abroad because of the added touch of beauty and quality that it gives to the home. Its unusual soft color tones blend equally well with the most exquisite drapes or the simply curtained window. The wide range of beautiful colorings makes it possible to select a contrasting or harmonizing shade for any interior or exterior effect.

Luxor shade cloth is made of the best quality close weave cambric, especially woven for this purpose. It is so closely woven that it does not crack or show pinholes. It contains no filling. The sizing is put on by hand and brushed in until every fibre is thoroughly impregnated. This preserves the fibres and enables the shade to withstand all climatic extremes of heat, cold and moisture. The unusual soft color tones, which make Luxor the choice of discriminating people, are produced by staining the surface of the cloth with coloring material that will not fade. In every case, where good quality is desired we recommend Luxor shade cloth mounted on Standard shade rollers. Made 36 inches to 150 inches.

Victor Satin Finish Handmade Unfilled Oil Opaque Window Shading Plain and Duplex Colors

Victor in the "New Satin Finish" oil opaque window shading thoroughly meets all general requirements of a Handmade Shading. Note the luxurious finish which can be readily cleaned with soap and water. The gelatin sizing, which prevents wrinkling, bulging and sagging, is put on by hand and thoroughly brushed in until every fibre is protected. The pure oil colors, also applied by hand, give a lasting and handsome finish.

Victor is a long life shade cloth. It will keep its original fresh color and appearance over a long period. Where an oil opaque shade is desired that will withstand the heat of the sun and severe climatic changes, there is none better than Victor—the standard of quality in opaque shade cloth.

Victor colorings and finish make this a window shading that adapts itself to general residence, office, or school purposes. Victor is thoroughly reliable and will give real shade satisfaction.

Victor "Satin Finish" can be supplied in all standard colors, and are made in widths 36 to 150 inches.

Cameo Figured Window Shading

Nothing quite so beautiful has ever been created for window shade purposes as CAMEO with its rambling floral design embossed in soft relief against the background of the cloth—a mere tracery of light and shadow etched in a mist of transparent color.

We have never been so genuinely enthused about any window shade fabric as we are about CAMEO. Once seen at your windows you'll share our enthusiasm.

CAMEO is just the type of window shade that will appeal to women of discriminating taste—women who take pride in the individuality of the architecture and furnishings of their homes.

Unlike some waterproof shades, this rare beauty of CAMEO is not subject to premature deterioration upon exposure to the sun. A new method of treatment that belongs to CAMEO alone enables this fabric to retain its strength and hold its shape through a long period of highly satisfactory service.

And the colors—lovely pastel shades which blend unobtrusively into the most exquisite color schemes — a perfect complement to the fashionable drapery fabrics of the day.

Made in widths 36 to 54 inches.

Each shade unit wrapped with slats, brackets and nails. Packed in dust-proof fibre box.

Stock Shades, 38 inches wide and less are sold only in full one dozen cartons, one color, width and length to the dozen; 42 inches and wider may be assorted, 4 colors, stock size, to the dozen.

For Prices See Separate Shade Price List

Window Shades for Schools, Hospitals, Hotels and Public Buildings

Viking and Viking Corded—Waterproof Window Shading

VIKING fully complies with government specifications covering pyroxylin shade cloth.

Viking represents an outstanding improvement over other waterproof shadings. In its manufacture we have avoided the use of those chemicals which experience has proved are harmful to the cloth and which early deteriorate from the influence of the sun. We use other ingredients which, while more costly, insure that VIKING shades will render a full period of satisfactory service and not break down prematurely. In keeping with the high character of this product we use only the finest woven shade cambric therein.

As the Vikings of old used to triumph over the waves, so does this cloth successfully withstand any contact with water. It may be readily cleaned by this simple procedure: lay the shade flat and scrub with soap and water. Then rinse it well with clean water and remove the excess moisture by patting with a soft cloth or sponge. Rehang the shade and leave it drawn down until dry.

Furthermore we have provided VIKING with a semi-lustrous finish, very pleasing in character and which will differentiate it readily from others.

VIKING, therefore, combines the desirable qualities of durability, cleanability and attractiveness.

Can be supplied in six most popular colors. Made in widths 36 to 72 inches.

See Illustration Pages 11-12—Two Shades to a Window

Gibraltar and Gibraltar Duplex Window Shading

Strong and rugged, as its name implies, this shading is surpassingly qualified to withstand the rigors of constant use under the severe conditions prevailing in schools, office buildings, hospitals and similar public or semi-public edifices. We have developed GIBALTAR especially for this type of extra heavy service and it will prove the answer to the window shade problems of many a school superintendent and building manager.

The ribbed fabric used in GIBALTAR imparts unusual strength and toughness and the nature of the weave reduces the possibility of tearing to a negligible point. The fabric is pyroxylin impregnated, producing a waterproof surface which can be readily cleaned with soap and water. In fact all requirements of heavy duty work are fulfilled in this remarkably strong shading.

GIBALTAR can be supplied in all popular colors. Made in widths 36 to 72 inches.

Send in Your Specifications and Let Us Quote

"Standard" School Duck Tan Duck Shades

We are prepared to furnish duck shades at prices which will enable you to get school shade business.

Our duck is especially dyed for this purpose. Our duck is a good, solid weave with a hard finished surface which reduces dust adherence to a minimum, but which still admits a maximum amount of light necessary for service in the school room.

Our duck shades are mounted on over-size guaranteed rollers, and nothing but seasoned, solid, smoothly finished slats are used in the hem. The sides of duck shades are overcast to avoid raveling and the hem is back stitched to avoid tearing at end.

Our duck shades are made by operators carefully trained for this work, are made right, and will give satisfaction.

Holland Window Shading

Standard Corded Hollands

These are the finest grade of Holland Shadings, made on a heavy, closely woven fabric into which the corded stripes are permanently woven. After the usual processes employed in the manufacture of Holland shading, but Standard Corded Hollands are given a permanent waterproof surface, which makes them readily cleanable with soap and water. These shadings represent an unusual value for materials of this type. Corded Hollands are more widely sold than plain Hollands and offer a wider margin of profit. Made in widths 32 to 60 inches.

"Windsor Striped Holland"

Windsor Striped Hollands afford the opportunity of securing in a low priced shade, the handsome and permanent corded effect usually associated with much more expensive materials. The stripes are woven into the fabric and run straight. The finish is clear and even. A very effective looking shade at any window. Made in widths 32 to 54 inches.

"Waverly Holland" Shading

Waverly Holland, because of the strong fabric used in its construction, will render a long period of satisfactory service. This cloth is carefully prepared and to it is imparted a uniform finish of very handsome and attractive effect. Made in widths 32 to 54 inches.

Machine Oil—Water Color—Paper Window Shades

Excelsior (Machine Oil Opaque)

Excelsior machine made oil opaque window shading is superior in quality in this class of goods. Our own process of manufacture has enabled us to produce a machine made cloth with smooth finish and rich color tones and a quality that is unexcelled of its kind.

Excelsior plain can be supplied in all standard colors. Made in widths 36 to 54 inches.

Excelsior Duplex made in 36-inch width only.

Anchor Window Shadings

Anchor water-color shading maintains in its class our established policy of giving the very best possible merchandise for the price sold.

Anchor can be supplied in all standard colors. Not made wider than 36 inch.

Fireside—Coated Paper Shade

Made From Cellulose Fibre (Wood Pulp Paper)

Fireside Shades have an attractive texture-like appearance and surface is protected by oil colors. The stock is strong and pliable and not susceptible to cracking. Mounted on serviceable spring rollers, in following sizes: Widths 36, 42, 45 and 48 inches. Lengths: 6 and 7 feet.

Fireside shades represent good value at their price, however, do not have the tearing strength of cloth shades. Anchor has almost three times the tensile strength of Fireside shades.

Nadir Paper Shades

Cellulose Fibre shades, plain color or patterned (see note), embossed, hemmed and sewed, including wood slat, all complete and ready to attach to roller. Each shade rolled separately and banded at center with 8-inch colored band.

Mounted shades (on spring rollers) are fully wrapped, including brackets.

36x6 Unmounted.....	50 to carton, weight 25 lbs.
*48x7 Unmounted.....	24 to carton, weight 18 lbs.
36x6 Mounted.....	25 to carton, weight 25 lbs.
*48x7 Mounted.....	12 to carton, weight 13 lbs.

*Available in No. 1 Plain Tan; No. 2 Plain Green; No. 40 Plain Ecru only.

Only full cartons shipped.

All Our Shades Are Made "Full Finished Length"

Each shade unit wrapped with slat, brackets and nails. Packed in dust-proof fibre box.

Stock Shades, 38 inches wide and less are sold only in full one dozen cartons, one color, width and length to the dozen; 42 inches and wider may be assorted, 4 colors, stock size, to the dozen.

Stop-Punch (One-half Size)

For Hold-Fast Metal Screws

Stop Punch No. W7 for Screw No. W70.

Stop Punch No. W10 for Screw No. W100.

This Stop-Punch is designed especially for use
with "Hold-Fast" Metal Screws. Stocked in two
sizes—No. 7 for No. 70 screw, and No. 10 for No.
100 screw. The "stop" or "shoulder" prevents the
punch from being driven in too far, assuring holes
of exactly the right size.

Illustration shows shade bracket fastened to hol-
low metal casing. Operation is simple, just punch
a hole in casing where bracket is to be attached.
place bracket in position, insert point of "Hold-
Fast" screw and use a screwdriver same as for a
wood screw.

For solid steel casing, drill hole slightly less than
diameter of screw.

Hold-Fast Metal Screw

For hollow metal sash and casings.

No. W70. ½-inch for 1-inch and 1 ¼-
inch Inside or Outside Brackets.

No. W100. ¾-inch for 1 ½-inch and 1 ¾-
inch Inside or Outside Brackets.

The Handy Window Shade Cutter

With this machine you can cut down all grades of mounted stock shades. Capacity ranges from smallest sizes up to 72 inches wide.

Portable, clamps anywhere, uses safety razor blades. Very simple to operate—illustrated directions furnished. Does the work quickly and accurately.

Master Slide Rule

Read Here
for Inside
Measure.

A valuable rule for taking accurate measurements, inside or outside. Locks when extended, each joint being held rigidly in place by a strong spring. No slipping or sliding of joints. Durably made of selected box-wood with brass-plated steel springs and mountings. Can be extended to a distance of 6 feet. Every rule perfect.

New Shade Punch and Eyelet Set
No. W191. Nickel Plated

Will set eyelets from $\frac{1}{4}$ to $\frac{5}{8}$ -inch long.

The setting dies, working on axles, adjust themselves to the bevel of the shade slat and insure the perfect setting of the eyelet.

The Punch is fitted with an adjustable gauge.

Handy Eyelet Remover

A perfect tool for ejecting the eyelet. Operates like a punch.

For Prices On Above Items See Separate Shade Price List

Master Steel Tape Rule
No. 306

A handy tape rule for either inside or outside measurements. Will measure up to 72 inches.

Wiss Slat Cutter No. 908

The perfect tool for cutting shade slats. Will cut every slat clean and square. No effort is required to operate this cutter.

No. 80. Modernized Department Fixture

A complete shade department occupying less than 25 square feet of floor space. 7 feet wide, 3½ feet deep, 7 feet high.

F. O. B. Chicago \$160.00

Electric sign and 30 sample shades included. Makes your store headquarters for window shades.

Shades Well Displayed Are Half Sold

Don't take the original cost into consideration
—One Extra Shade a Day Will Pay for One of
These Racks in a Short Time

No. 7. Wall Display

This No. 7 display is a very attractive wooden frame built to accommodate six full size window shades of any grade carried in stock by the dealer. It hangs securely on the wall and is a mighty effective attention getter. These racks are available in walnut finish.

With six 36-inch sample shades as selected—\$2.00, f. o. b. Chicago.

No. 35. Display

A convenient self service fixture, with twelve bins to hold 24 dozen stock shades. Finished in black and silver or old ivory. Stands 6 feet tall, 41 inches wide and 42 inches deep. The table top is covered with maximole leather. Complete with electric sign and 20 sample shades.

\$70.00

F. O. B. Chicago

Center Installation for Schools, Hospitals and Public Buildings

Two Shades to a Window for Light and Ventilation

The most satisfactory and convenient method of obtaining the proper combination of light and ventilation in a room is shown in the accompanying illustration.

This method consists in hanging two shades to a window, one shade arranged to roll up, the other to roll down. Shades overlap in center, and light does not show through.

Besides being simple and economical, this arrangement of securing light and ventilation is durable and will not get out of order.

We consider this arrangement superior to the use of any adjusting device offered.

When shades are hung inside of the casing, special brackets No. W87 are used. Shades can be hung on the outside of casing by using brackets No. W86.

For Method "C"

Bracket No. W87

Lower Shade Rolls Up

Bracket No. W86

Method "S"

Single Cord Control

For Inside or Outside Casing

Method "C"

Pulley in Center of Casing

For Inside or Outside Casing Hanging

Extension Ribbed Light Strip

Improved Light-Strip Installation

Light-Strip is adjustable, and does not require cutting for either inside or outside hanging. Both fit close against casing, eliminating all possible light. Lower shade rolls down and upper shade rolls up.

Send in your specifications and let us quote.

MOTION PICTURE AND LANTERN SLIDE SCREENS

- Screens mounted on rollers, spring tension adjusted and fitted into cases ready for use, cord pull attached.
- Metal tubes are attractive and protect the screens from dust when not in use.
- Easily carried about and hung as needed without damaging screens—hangers attached to case.
- Specially appropriate for use in schools, churches, lecture halls, convention halls, homes, etc.
- Screens unequalled in quality. Strong, durable fabric with a finish that gives clear, distinct pictures from any angle.

MADE IN SIZES $3\frac{1}{2} \times 3\frac{1}{2}$ up to 12×12 —Aluminum or White
Prices Furnished Upon Request.

Method "S-D"

Double Cord Control

For Inside or Outside Casing

"Diploma" Window Shade Equipment

Available Only for Following Brands: Gibraltar, Luxor X, Luxor Tint and Victor Satin Finish.

"Diploma" Window Shade equipment has no equal. Months of careful study have been spent in its development. Every detail has been carefully worked out to correct some specific weakness common to window shade equipment of the past. So simple that children can safely operate it. Entirely "fool-proof"—there is nothing to get out of order. We believe this to be the most important development in window shade equipment in recent years and feel that in it we have successfully met all the problems that for years have proven a constant source of trouble in the school room. Ask for circular illustrating "How to Measure."

SIXTEEN SUPERIOR FEATURES

1. **Extension Hem.** Lower sash shades have 1-inch extended hem as protection against damage when grasping.
2. **Reinforced Edge.** ½-inch shade cloth strip folded around the edge and extending 3 inches above the hem.
3. **Roller Sleeve for Lower Shade.** Roller is inserted in special sleeve and stapled. Prevents tearing from roller.
4. **Control Cord** is adjustable to take up slack.
5. **Cord Cleat** on lower casing provides arm lock for operating cord.
6. **Snap-On Fasteners.** Eliminate eyelets which weaken the slats.
7. **Glazed Cord.** Extra heavy stretch resistant cord. Smooth and sanitary.
8. **Light Strip.** Ribbed, telescoping light strip with attached brackets. Shades cannot jump out.

9. **Heavy Slats.** Large size 1¼-inch best grade straight grained white pine.
10. **Staples** at each side of hems prevent pulling away.
11. **Standard Rollers.** 1-inch minimum size. Guaranteed.
12. **Looped Cord Ends.** Clinched with metal fasteners. No unsightly knots.
13. **Two-Point Suspension.** Upper shades have two-point suspension for ease of operation and to equalize the strain on the slat and fabric.
14. **Pulleys.** Smooth running and sturdy.
15. **Bronze Finish.** All hardware including roller ends, is of distinctive rust-proof statuary bronze finish.
16. **Demountable Window Shade Assembly.**

DEMOUNTABLE WINDOW SHADE ASSEMBLY

A New Feature of "Diploma" Equipment

The light strip (as illustrated) and shades in the "Diploma" equipment are installed at the window by means of our new demountable feature. This is simplicity itself—first attach a special "Light Strip Holder" to each side of the window, either on the inside jamb or on the outside of the casing. Then the light strip with the shades in the brackets is dropped into place in the holders. The entire assembly is secured by means of removable latch pins.

Thus without disturbing the window shades the entire assembly can be easily removed from its position at the center of the window and raised to the top, permitting the windows to be washed, glass replaced, frames repainted or any other necessary repairs without danger of injury to the cloth or without having the shades or light strip in the way to hamper such activities.

The following explanation will demonstrate the simplicity of this new assembly and the ease with which it may be used:

1. The cord from the lower shade is wrapped securely around both the upper and lower shades and light strip and tied.
2. The latch pins are next removed from the light strip holders.
3. The light strip, with the shades in place, may now be raised out of the way at the top of the window by simply drawing the cord of the upper shade.
4. After the windows have been washed or necessary repairs made the assembly may be lowered, the light strip placed in the holders and the latch pins dropped into place.

Send in your specifications and let us quote.

The VENETIAN BLIND OF TODAY

SIMPLICITY OF OPERATION AND CONSTRUCTION

Appearance and Adaptability

A positive action, worm gear tilting device, expensively die casted, and operated with a beautiful nickel-plated beadchain. Gives absolute assurance of an open or closed position of the Slats as desired. There can be no slipping. There is no frequent renewal of cords as is true of cord-operated tilts.

A neat, automatic cord locking device here grips the lifting cords holding the blind level on the window in any desired position without unsightly cord-holders. This part is so constructed as to insure the least possible wear on the lifting cords and to give the greatest efficiency.

Efficiency and Economy

Special attention is directed to the attractive valance which serves to conceal all working parts and head members; it also eliminates excess light shafts. This Valance is especially desirable in Residential Installations. **It is furnished as standard equipment when so specified.**

Indirect sunlight—interiors without glare—privacy with vision—ventilation without darkness or draft—luxury and economy. These unusual combinations are offered with the use of our Venetian Blind.

HARDWARE SPECIFICATIONS:

1. Positive acting worm gear tilting device—chain operated to insure non-slipping action.
2. Automatic cord stop, end pull set at angle, insuring no binding and less wear on cords. Brake will stop blind at any desired position on window and hold until released.
3. All hardware cadmium or nickel plated or otherwise made rust proof.
4. All necessary erection hardware and screws furnished with all orders.

TAPES: (See our Color Chart)

All tapes of very best quality, standard colors.

CORD SPECIFICATIONS:

All cords are hollow woven, glazed and non-stretching to harmonize with tape colors as follows:

No. 1. White	No. 10. Ivory
No. 2. Black	No. 15. Green
No. 9. Chocolate	No. 16. Mulberry
No. 4. Drab	

WOOD MEMBERS SPECIFICATIONS:

All slats, head members and rails are of selected No. 1 clear, Port Orford white cedar, or select No. 1 Bass wood, kiln dried to less than 5% moisture content. All wood primed and finished with three coats acid, heat and alkali resisting synthetic enamel. Standard colors as follows:

No. 40. Dead White	No. 50. Light Green	No. 66. Light Blue
No. 41. Off White	No. 52. Nile	No. 77. Silver
No. 42. Ivory	No. 47. Peach	No. 99. Aurora Red
No. 44. Old Ivory	No. 17. Black	No. 75. Natural Wood
	No. 30. Eggshell	

FINISH SPECIFICATIONS:

1. Synthetic enamels have been selected for this high quality merchandise, by reason of greater resistance to sun and elements, also enabling washing and cleaning over longer periods of time.

2. Blinds can be had in any special color to match sample, at slight extra cost. Tapes and cords also available in special colors.

Give us size of opening "Both Ways," whether installation is to be made **INSIDE** or **OUTSIDE** of casing and let us quote.
VENETIAN BLINDS MADE TO SPECIAL ORDER ONLY. DELIVERY MADE FROM 10 TO 14 DAYS.

INSTRUCTIONS FOR HANGING VENETIAN BLINDS!

IMPORTANT—READ CAREFULLY

THE AUTOMATIC CORD BRAKE (g) is so designed to release instantly by pulling the Cord (h) to the left (as you face the Blind). The Brake is automatic, and will stop the Blind when you release Lifting Cords.

If the Blind is one or more Slats too long, it may be shortened by removing the tacks which hold the Tapes underneath Bottom Rail (i) and taking out the necessary number of Slats.

If the Blind is only slightly too long, it is not necessary to remove a Slat. Just raise the Blind about three-eighths inch above the Hold Down Brackets (j) and let the Brake lock the Blind in this position,

stretching the Blind down so that the screws in the Bottom Rail (i) will engage the Hold Down Brackets (j).

If Blinds are slightly too short, just stretch into Hold Down Brackets. Tapes are made of durable cotton and will stretch easily.

All Blinds measured to hang **INSIDE** will be made so the Headpiece fits into opening snugly. Slats will have an allowance of one-quarter inch on each side for clearance.

If measured for **OUTSIDE** installation, Headpiece and Slats are made exact width ordered, with no allowance at sides.

TO HANG BLIND INSIDE BETWEEN STOPS OR JAMBS WITHOUT USING BRACKETS

ILLUSTRATION NO. 1

Rest the Blind on the window sill. Remove Tilt Bar (a) from Tilt Device (b) and Hanger (c). Now, raise Headpiece (d) to top of the window. You will notice two screw holes bored in Headpiece (d).

Place Headpiece in the desired position at the top of window, and mark point at the top of window with a nail inserted through the holes in the Headpiece. Now remove Blind and drill on points marked by nail.

Insert two-inch, number 10 screws through holes in the Headpiece and raise Headpiece (d) to position at the top of the window. Rest Tilt Bar (a) and the rest of the Blind on window sill. Screw Headpiece into position, but be sure to leave enough space so that Valance can be slipped on later.

Secure Valance Brackets (e) to Valance Board (f) with one-quarter inch screws, as shown in illustration No. 2. Now slip Valance Brackets (e) over Headpiece (d). Tighten two-inch, number 10 screws in holes through the Headpiece so that the Blind will fit tight against the top of the window. Replace Tilt Bar (a) in Tilt Device (b) and Hanger (c), releasing Brake (g) by pulling Lifting Cords (h) to the left, and let the Blind down full length.

Place one and one-half inch, number 10 screws in each end of Bottom Rail (i), and attach Hold Down Brackets (j) to the inside of the window as shown in illustration No. 3.

Slip Lift Cord Equalizer (k) over both Lifting Cords (h) and adjust where desired. **THIS IS IMPORTANT** . . . Equalizer (k) keeps the cords from twisting and insures smooth operation at all times. (See illustration No. 9.)

TO HANG BLIND INSIDE BETWEEN STOPS OR JAMBS BY USE OF UNIVERSAL INSTALLATION BRACKETS

Screw installation Brackets (l) to stops or jambs as shown in illustration No. 4. Rest the Blind on window sill, and detach Tilt Bar (a) from Tilt Device (b) and Hanger (c). Raise Headpiece (d) and place on Brackets (l) as shown in illustration No. 4. Secure Headpiece (d) to Brackets (l) with small size screws.

Lift Tilt Bar (a) and place in position in Tilt Device (b) and Hanger (c).

ILLUSTRATION NO. 4

Illustration No. 8, at the left, shows how Cord Brake (g), which is built into Headpiece (d), fits snugly between "ears" of Bracket (l). Brake (g) slips in between the "ears" when brackets are used either **INSIDE** between jambs or stops, or **OUTSIDE** on the face of the window casing.

Secure Valance Brackets (e) to Valance Board (f) with one-quarter inch screws as shown in illustration No. 2, and slip Valance Brackets (e) over Headpiece (d). The Valance screens the working parts of the Blind and gives an attractive finished appearance to the top of the window.

ILLUSTRATION NO. 2

Place one and one-half inch, number 10 screw in each end of the Bottom Rail (i). Now attach Hold Down Brackets (j) to the inside of the window as shown in illustration No. 3.

Slip Cord Equalizer (k) over both Lifting Cords (h), as shown in illustration No. 9, and adjust to approximate position shown in illustration No. 1.

IT IS IMPORTANT to properly adjust Cord Equalizer (k) as it will keep the cords from twisting and insures smooth operation at all times.

ILLUSTRATION NO. 5

ILLUSTRATION NO. 6

TO HANG BLIND OUTSIDE ON FACE OF CASING BY USE OF UNIVERSAL INSTALLATION BRACKETS

First study both illustrations No. 5 and No. 6, shown below. Either method of installation may be used to hang Blinds on the face of the casing. By using method shown in illustration No. 5, Blind will rest in Brackets (l) without fastening Headpiece (d) to Brackets. However, the top of Bracket (l) will extend above Valance Board (f) and will be visible. By employing the method shown in illustration No. 6, it is necessary to screw Headpiece (d) to Brackets (l), and Valance (f) will completely conceal Brackets.

Having decided upon either method of installing Bracket, proceed as below.

Attach Brackets (l) to face of window casing. Rest the Blind on the window sill, and detach Tilt Bar (a) from Tilt Device (b) and Hanger (c). Raise Headpiece (d) and rest on Brackets (l) as shown in illustrations No. 5 and No. 6. If the method used in illustration No. 5 is employed, it is not necessary to fasten Headpiece (d) to Brackets (l), but if method shown in illustration No. 6 is used, attach Headpiece (d) to Brackets (l) with small screws.

Raise Tilt Bar (a) and replace in Tilt Device (b) and Hanger (c). Release Cord Brake (g) by pulling Lifting Cords (h) to the left, and lower Blind full length.

ILLUSTRATION NO. 5

ILLUSTRATION NO. 6

ILLUSTRATION NO. 7

Secure Valance Brackets (e) to Valance Board (f) with one-quarter inch screws as shown in illustration No. 2. Now slip Valance Brackets (e) over Headpiece (d).

Place one and one-half inch, number 10 screws in each end of the Bottom Rail (i). Now attach Hold Down Brackets (j) to the face of the window casing as shown in illustration No. 7. Be sure to have Hold Down Brackets (j) in position shown, and attach securely with small screws.

Illustration No. 8 shows how Cord Brake (g), which is built into the Headpiece (d), fits between the "ears" of Bracket (l). Brake (g) slips in between the "ears" when brackets are used either **INSIDE** between the jambs or stops, or **OUTSIDE** on the face of the window casing.

Slip Cord Equalizer (k) over both Lifting Cords (h). **THIS IS IMPORTANT** as it will keep the cords from twisting and insures smooth operation. (See illustration No. 9.)

Stage Curtain Suggestions

Estimate gladly furnished. Give width and height of proscenium opening, also depth of stage, and we will quote on job made up complete ready to install.

Style No. D4

Velour valance, scalloped, box-pleated and trimmed with heavy 6-inch gold bullion fringe, can be had with or without letters. Velour draw curtains made with 50% fullness and trimmed across bottom with heavy 6-inch gold bullion fringe.

Style No. D8

Cyclorama setting, installed back of velour curtain. Average stage requires a curtain on each side of stage and two curtains at back of stage to allow opening in center for entrance. Also two borders across top of stage, all made with 50% fullness. Cyclorama generally are hung stationary and made of either plain monks cloth or plain repp in tan color.

Style No. D7

Velour valance, made puff style, with box pleats and trimmed with heavy 6-inch gold bullion fringe. This style valance requires double the amount of velour in order to make puffs. Velour draw curtain made with 50% fullness and trimmed across bottom with heavy 6-inch gold bullion fringe.

Style No. D2

Velour valance made with 50% fullness and trimmed with heavy 6-inch gold bullion fringe, can be had with or without letters. Velour draw curtain made with 50% fullness and trimmed across bottom with heavy 6-inch gold bullion fringe.

Style No. D5

Shows stage curtain without valance. Velour draw curtain made with 50% fullness and trimmed across bottom with heavy 6-inch gold bullion fringe.

Style No. D6

Shaped velour valance, trimmed with gold braid and heavy 6-inch gold bullion fringe. Can be had with or without letters. Velour draw curtain made with 50% fullness. Can be had with or without fringe trimming across bottom.

Noiseless Stage Track and Equipment

Below we show a new extra heavy STAGE CURTAIN TRACK and EQUIPMENT for operating same. You will find the track is easily put in place.

This STAGE TRACK is an all steel track and will not warp or buckle, neither will rosin come out in track which causes carriers to stick, as sometimes happens with wood tracks. Our track is especially suitable for schools as its construction is simple and there is nothing to get out of order.

The CARRIERS have a steel axle, the wheels and guide lug being made of vulcanized fibre, which make them noiseless.

The wood beam to which track is fastened should be two 2x4s lapped and nailed together, making a wood beam size 4x4. This beam we do not furnish as you can buy same from your lumber dealer.

This TRACK simplifies the hanging of curtain and our SPECIAL ORDER DRAPERY WORKSHOP is at your service to make the curtains.

No. D30. Heavy brass stage track pulley with 3-inch wood wheel, mounted on heavy steel axle. This pulley is noiseless.

Each \$4.50

No. D50. Good quality felt, 2 1/2 inches wide by 15 yards long. To be used under all track and pulleys which deadens the sound and makes the equipment noiseless.

Per Piece \$4.00

No. D8. Extra fine quality sash line for lacing curtain.

Per 100 feet \$3.50

No. D70. Harness snaps that are fastened to the top of the curtain, and hook into the eyes of the carriers.

Per Dozen \$1.00

No. D20. Carrier, Vulcanized Fibre Wheels and Guide Lug, which make them noiseless.

Per Dozen \$9.00

No. D40. Floor pulley, spring and hook. The pulley is same construction as No. D30 pulley. The spring and hook are of heavy steel.

Per Set \$5.50

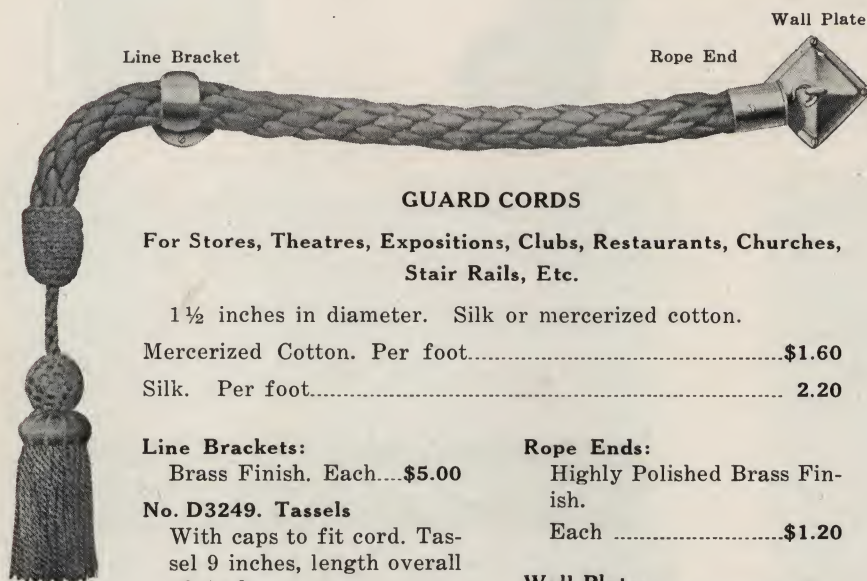

No. D10. Stage Curtain Track. Made of heavy gauge steel and is capable of carrying the largest size of heavy velour curtain. Can be had in the following lengths:

12-foot Lengths, Per Foot \$0.80

16-foot Lengths, Per Foot .80

20-foot Lengths, Per Foot .80

Ornamental Extension Drapery Cranes

In New Finishes

Swinging cranes permit many highly individual treatments that are unusually attractive and in good taste. They are particularly adaptable to French windows, casements, arches and similar places where a movable support is desirable. Easily swung to and fro, these cranes allow free movement of casement or door, and unobstructed entrance of light and air.

Extension Crane

Arm extends from 14 to 21 inches. Brackets 2 inches high with 3-inch projection. Cast metal end. Cast metal scroll and $\frac{3}{8}$ -inch bar, one piece, with friction stop. Packed one pair wrapped in paper and cardboard with screws and 14 rings.

"Gold Seal" Quality

Stipple Tone Design

The KIRSCH "GOLD SEAL" EXTENSION ROD is the standard of comparison. Five minutes spent studying its distinctive features will reveal why this rod is the largest selling rod retailing at more than 10c each. All the usual rod troubles have been eliminated in this rod. The rod tilts instantly into place on the bracket, which is strong and invisible when the rod is in place. The rod has invisible reinforcing, giving surplus strength without needless weight. It is finished as painstakingly as the finest automobile, three coats being sprayed on and baked. The Stipple Tone design is unusually attractive.

Quality Considered—Kirsch "Gold Seal" Extension Rods are the lowest priced Rods on the market.

Kirsch "Gold Seal" Single Extension Rod

Kirsch Pin-On Weights

Use pin-on weights to prevent the bottom corners of curtains and draperies from rolling and curling. The weight is placed inside the hem in proper position, with the point bearing the letter "K" at the top. The pin is inserted through the material into the upper pin-hole in the weight. The thumb depresses the fabric so that the pin, while being inserted will pass through the fabric and into the lower hole in the weight.

Flat "Solid Sash" Cut-to-Measure Rod

No. K9002-6. Colonial Ivory

No. K9002-15. Satin Brass

This rod is especially recommended for French doors and casement windows because curtains of this type of installation should be as close to the glass as possible. The short projection bracket and the rod combine to make a particularly neat and rigid installation. The rod may also be used successfully on double hung windows for rod at top and bottom. It is used extensively for sunbursts for arched windows. **Sold in 12-foot lengths only.**

Per Foot \$0.10

Outside Sash Bracket

For use with No. K9200 solid cut-to-measure sash rod.

No. K9138-15. Satin Brass

No. K9138-6. Colonial Ivory

Dozen Pair \$1.40

No. K208 3/8. "Premier" Socket

For 3/8-inch rods, brass. Rubber tip is so fastened that it is impossible for it to come out. For neatness, simplicity, durability and usefulness this socket stands first.

Dozen Pair \$5.00

ENJOY INCREASED PROFITS WITH COMPLETELY ASSEMBLED EXTENSION TRAVERSE RODS

The expense of draw curtains has always been prohibitive to the family of moderate means. However, since the introduction of the popular priced Extension Traverse Rods, the cost obstacle has been removed, and every home can enjoy the luxury and convenience of draw curtains.

YOU BENEFIT BY SELLING THESE RODS

YOU INCREASE YOUR DRAPERY BUSINESS. Draw curtains require full widths of material instead of split widths, increasing your yardage sales 50 to 100%.

YOU GIVE THE HOME-MAKER A DEFINITE REASON FOR CHANGING HER DRAPES. The home-maker is not easily tempted to replace her glass curtains and drapes with similarly styled glass curtains and drapes with price the only reason for making the change, but if she can be shown the advantages of draw curtains, the investment in new drapery fabrics is more logical and made with less resistance.

Kirsch Single, Extension Traverse Rods

Made of quality materials, these rods are strong, rigid and non-sagging. They are mechanically correct, simple in construction, fool-proof and easy to reassemble, if necessary. Rods extending 28-48 inches are equipped with 12 carriers; rods extending 48-86 inches with 24 carriers. Packed one set in a box, one dozen boxes to a carton.

**"Regular Cut-to-Measure Rod"**

No. K9000-6 Colonial Ivory
No. K9000-80 Statuary Bronze

This rodding is particularly adapted for traverse (draw cord) curtain and drapery installations. It can be used with equal satisfaction where no draw cords are employed.

In 12-foot lengths, per foot, \$0.10
Cut lengths, per foot, .16

**"Regular" Cut-to-Measure Overhead Track**

No. K9005-6. Colonial Ivory
No. K9005-80. Statuary Bronze

Identically the same size and weight as No. K9000 except this rodding is bored with holes at spaced intervals. Especially adapted for overhead installations.

In 12-foot lengths, per foot \$0.14
Cut lengths, per foot, .20

**"Heavy Duty" Cut-to-Measure Rod**

No. K9003-80. Statuary Bronze

Recommended for installations on unusually wide windows and group windows where heavy or extra heavy draperies are used. The strength of this rod is greater than that of tubular or round rodding because of its shape, which gives strength without needless weight.

In 12-foot lengths, per foot, \$0.14
Cut lengths, per foot, .20

**"Heavy Duty" Cut-to-Measure Track**

No. K9035-80. Statuary Bronze

Identical in appearance, weight and size to No. K9003. This rodding has holes bored at space intervals which construction permits overhead installation.

In 12-foot lengths, per foot, \$0.15
Cut lengths, per foot, .21

KIRSCH Cut-to-Measure Rod Accessories

Items Referred to Are Listed on This and the Following Page

In Kirsch Cut-to-Measure drapery hardware all cords and pulleys are completely concealed within the rod itself. This makes for long wearing, fool-proof installation and eliminates the possibility of cords hanging in the drapery hooks.

Slides—not wheels or rollers are used. Slides cannot bind, stick or "climb" because they are bound to travel in a straight line. Noise and friction are reduced to a minimum. With slides the efficiency of the traverse improves with use.

Draperies or curtains may be hung and taken down without disturbing hardware by simply unhooking the draperies. The drapery hardware practically becomes a part of the window trim.

"Regular" Cut-to-Measure Installation**Necessary Parts for "Regular" Cut-to-Measure Traverse Sets.**

For the "Regular" type of projecting traverse sets use:

No. K9000. "Regular" Cut-to-Measure Rod.
No. K9206, K9207 or K9208. "Regular" Elbow Pulley Set.
No. K9118. "Regular" Single Bracket.
No. K9402 "Regular" Master Slide (one pair).
No. K9409 "Regular" Plain Traverse Slides (one to every 6 inches of track).
No. K9522 "Regular" Traverse Tassels (one pair).
No. K9524 "Regular" Traverse Cord (double the length of the track and add 10 feet for drop).

This set can be used without the elbow pulley set by using No. K9211 "Regular" Straight Pulley set with No. K9121 "Regular" Outside Brackets or No. K9125 "Regular" Inside Brackets. The instructions for cord, tassels, and carriers are the same as in the set above.

For "Regular" Overhead Cut-to-Measure Traverse Rods use:

No. K9005 "Regular" Cut-to-Measure Portiere Track.
No. K9212 "Regular" Overhead Pulley Set.
No. K9430 "Regular" Overlap Master Slide.
No. K9505 "Regular" Plain Overhead Slides.

The instructions for cord and tassels are the same as in the other traverse sets described above.

"Heavy Duty" Installations**Necessary Parts for "Heavy Duty" Cut-to-Measure Traverse Sets**

For the usual type of outside projecting installation use:

No. K9003 "Heavy Duty" Cut-to-Measure Rod.
No. K9243 "Heavy Duty" Straight Pulley Set.
No. K9198 "Heavy Duty" Brackets.
No. K9402 Overlap Master Slide (one pair).
No. K9409 Plain Traverse Slides (One for every 6 inches of track).
No. K9523 "Heavy Duty" Traverse Tassels.
No. K9532 "Heavy Duty" Traverse Cord (Double the length of the track and add 10 feet for drop).

For "Heavy Duty" Overhead Cut-to-Measure Installation use:

No. K9035 "Heavy Duty" Cut-to-Measure Track.
No. K9227 "Heavy Duty" Overhead Pulley Set.
No. K9440 "Heavy Duty" Overlap Master Slide.
No. K9405 Overhead Plain Traverse Slides.

The instruction relating to the number of slides, the cord and tassels is the same as in the outside installation.

Wood Cornices

The use of wood cornices in drapery treatments are becoming more and more popular. These cornices offer two styles, the Cut-to-Measure and the Extension cornice. They are well styled, sturdily built and finished in new popular decorative colorings.

Cut-to-Measure Cornice Set

One complete assembly consists of the following: Wood cornice board, one pair wood brackets. The brackets have 4½-inch return with adjustable steel bracket plate and spring sockets for ⅜-inch rod. Cornice board is 4½ inches wide. The brackets are packed one pair in a box, with right and left attachment plates and necessary screws. The cornice board is packed as ordered.

		Per Set

Mattresses

INNER-SPRING MATTRESSES

Mayfair—Inner-Spring Mattress

The Mayfair is a luxurious bed; it is attractive in appearance and restful for the sleeper. The spring center is the Nachman "Feather-Spring" Unit—a large number of spring coils carefully tempered and held securely in place between layers of heavy fabric, by the Nachman patented process. This resilient spring unit is upholstered with thick bats of extra quality felt. The Mayfair is soft and comfortable but buoyant, and will hold its shape and appearance indefinitely. Workmanship of the highest standards and materials of the best quality produce a bed that cannot be excelled. The covering is gold filled Rayon Damask in rose, green or orchid (the figure is gold) panel design. The most beautiful covering used on mattresses. The Mayfair has screened ventilators and handles on the sides. Taped and finished with roll edge. Each mattress packed and sealed in corrugated fibre carton.

Each.....	4/6	3/3
	\$39.90	\$39.90

Montrose—Inner-Spring Mattress

The Montrose is a competition mattress and offered as being the best of its class. It has an all-steel spring unit and is upholstered with good quality of felt. Although the Montrose is sold at a low price, the resilient spring unit and plenty of soft felted cotton make it a comfortable bed. It comes either in printed drill or the popular Dobby weave ticking, in blue, rose, orchid or green. Each mattress packed in a strong fibre carton.

Folding Cots

No. K1308. Leader Cot

A substantial cot at a low price. Full 6 feet long 25 inches wide. Selected hardwood frames covered with heavy white canvas. End legs are crossed and riveted and center legs reinforced with "S" irons. Folds into a compact bundle. Packed six to a bundle, wrapped in heavy kraft paper, weight 160 pounds per dozen.

Each \$3.70
Dozen \$38.40

No. K2300. Staple Cot

A cot has many uses—in homes, clubs, for use in camping or motoring trip. This cot has been built for hard usage. Opened full length, it is a comfortable elastic bed 6 feet 6 inches long, 27 inches wide and 17 inches high. However, it folds into a neat bundle only 3 feet 2 inches long. Covered with 12-ounce olive drab duck tacked with 60 double-pointed coppered tacks. Painted hardware. All legs reinforced with "S" braces. Packed four in a carton. Weight 206 pounds per dozen.

Each \$6.30 Dozen \$68.00

For Comfort

No. K1707. Bear Cat Cot

The same as No. K2300 except that the end legs are crossed and riveted and the middle legs are reinforced with "S" braces. Packed four in a carton. Weight 181 pounds per dozen. A substantial, well constructed cot at an exceptionally low price.

Each \$4.50
Dozen \$50.00

Pillows

We call your attention to our line of Pillows, made expressly for us. Pure, clean and selected feathers; no quills; no dust; no odors. Preserve your health. These pillows are full and buoyant, covered with lasting, attractive ticking. Price and quality are guaranteed.

Sturdy Public Seating Chairs

The increasing demand for portable seating, built to withstand hard and constant service, for public seating—lodge rooms, chapels, churches, schools, clubs, offices, etc., and for rental service—is answered by this line of sturdy folding steel chairs.

These points of superiority stand out to make this line the most popular where maximum comfort is desired and convenience and strength are demanded.

Heavy, 14-gauge channel steel construction . . . Riveted construction throughout, no spot welds being used . . . Extra heavy solid steel rivet used at junction of frame and legs . . . Wide, embossed, steel brace used on all chairs just below the seat, on the front and rear legs of No. K38 and the front legs of No. K48S. A 250-pound man can stand on this brace without bending it . . . Heavy plywood, padded, washable leatherette upholstered seat . . . Seats are encased in a channel steel frame, preventing splitting and eliminating all sharp edges . . . Seats easily removed . . . Nickel plated glides on all legs prevent marring of the finest finished floor. "Perfect Posture" form-fitting backs . . . Frames are washed in 3 separate chemical solutions to remove all dirt, grease, etc., before they are dipped in weather-resisting enamels and baked . . . Fold flat for easy storage.

These all-purpose chairs are the choice of the discerning buyers who want a good looking chair that gives both quality and comfort . . . at a very reasonable price.

No. K48S-133. Walnut Brown

New, Brown McKay Ventilated Table Pads

These new McKay Pads are covered with a rich brown Flannel on the bottom and genuine Brown Du Pont Fabrikoid on the top. This new color matches the furniture and makes an excellent ground for lace table cloths.

The surface of the pad may be washed perfectly clean with soap and water or a damp cloth.

The interior construction of the pad is built up of layers of Chip Board, Absorbent Felt and Ventilated Air Chambers, a combination which is the most effective non-conductor of heat.

All pads are made to fold conveniently for handling and can be put away in an ordinary buffet drawer when not in use.

Important Information When Ordering Table Mats

If table is oval or odd shaped, send paper pattern of entire table top, or half of it, if both halves are alike.

If table is a square or oblong with square corners, give dimensions, and state that it has square corners.

If square or oblong, with round or cut corners, give dimensions and state that it has round or cut corners and send paper pattern of one of the corners.

For a table with a bevel edge the pattern should cover only the flat surface of the table and not extend over the bevel.

If table is round, give the diameter and state that it is round.

Special sizes made to your measurement are not returnable under any circumstances.

If leaves are wanted, always state the number wanted and the WIDTH. They should be the same as the boards in the table.

Make all the measurements very carefully, using a ruler and not a tape, which may be stretched or shrunken.

All Table Mat Prices F. O. B. Factory.

Heat-Proof Table pads are made up of several laminations of asbestos and woolfelt, scientifically constructed which gives maximum insulation. Each pad is made in two halves and folds in four sections, thus permitting storage in any buffet drawer.

XXX Grade

Genuine brown felt is used on the bottom, and the covering is DuPont Fabrikoid, which can be guaranteed not to crack, peel or discolor.

**No. K4½. Tommy Armour Special Golf Balls**

Featuring balanced construction. With Worthington's extensive patented hydraulic center, insuring absolute uniformity in accuracy and compression.

The results of this research program, combined with our skill and experience gained in more than 30 years devoted to the exclusive manufacture of golf balls, resulted in the Tommy Armour Special. It is "a master shot maker's ball."

The hydraulic, high compression center used in the Tommy Armour Special to give it super performance is exclusive to Worthington and is thoroughly covered by patents. It is found only in balls manufactured by our company. This hydraulic center is the only one that is absolutely uniform in wall thickness and weight and that can be filled without chance for variations. It insures marvelous accuracy and uniform compression without resort to after-filling or a varied tension of the windings.

From the center out the absolute uniformity, accuracy and high compression of the Tommy Armour Special are maintained by windings of highest quality rubber and a cover of carefully refined balata all carefully tested at each step in the making. Retail \$0.75.

Per Dozen \$12.00

Each \$11.90

Spell-O-Light Electric Sign

The Sign That Spells

Operates on 110 Volt A. C. or D. C.

Spell-O-Light originates from a fully tried, tested and perfected advertising idea and yet is a brand new, fresh and appealing electric sign. It is easily adapted to the needs of the individual advertiser. The letters being interchangeable, the advertising may be changed without the great expense as is the rule with most electric signs.

The principle applied to this advertising sign is that an electric sign which spells out a message or name by word, syllables or letters arrests attention and emphasizes the message.

This is accomplished with this sign. The message can race along or it can crawl along, it can crawl and then suddenly speed or it can race with a burst of speed and then slow down.

The basis of this sign is an electric contact device which allows any number of bulbs to be switched on and off automatically. The Spell-O-Light consists of boxes with letters or numerals which connect mechanically and electrically when pushed together. No wiring is necessary. Simply plug the attachment cord into the nearest outlet, just like you would with an electric iron.

This illustration shows the method of attaching the boxes together. An attachment cord very much like an iron cord plugs into plug connection of letter "B" and into the nearest outlet on either A. C. or D. C.

This illustration shows letters "G" and "B" fastened together. The other box shows the interior of a Standard box without the letter in place. The letters are inserted in grooves running from top to bottom of the front of the box.

Requirements for Complete Spell-O-Lite Sign

One Master Box—For the last letter of the sign. This box has a mechanism which automatically permits all bulbs to remain on for a given time and turn off so that the sign may again begin its cycle.

Standard Boxes—One for every letter, numeral, punctuation mark or blank space between words (except the last letter). In each box is a control for timing the individual 10-watt bulb with relation to the others. Also a switch to permit each letter to flash on individually or in unison with other letters.

Attachment Cord—This is furnished free with complete signs. Eight feet long with attachment plug caps.

Connecting Cord (Optional)—When more than one series of letters are to be attached together so that they will light on the same circuit, this 3-foot connecting cord is used.

All boxes are 5 inches high, 3 inches wide and 3 inches deep. Crackle Ivory enamel finish. The letters are transparent Red non-inflammable Acetate with opaque silvery finish background. Letters 3 3/8 inches high.

The following letters, numerals and punctuation marks can be furnished:

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

New Sonora Console Radios

"Clear As A Bell"

Model No. K190-8K

SONORA 8-Tube Console Radio

3 BANDS—550-1700 K.C.—domestic and Canadian broadcasts; 1700-5400 K.C.—short wave amateur, ships at sea, aircraft and police; 5600-18100 K.C.—short wave American and foreign broadcasts.

3 GANG CONDENSER—With Pre-Selector stage.

A.V.C. (Automatic Volume Control) on two tubes—6A7 and 6D6.

DIAL—8 inches in diameter. Full vision airplane—with 10 button automatic station selector centrally located within the dial.

AUTOMATIC TUNING—Extremely accurate in selecting up to 10 stations within an average of 8 to 12 Kilocycles separation from resonance. Simplified adjustment, requiring no tools or skilled serviceman to revise or select stations. Extreme precision in design provides absolute accuracy in tuning.

OUTPUT—Full 7½ watts undistorted.

TONE CONTROL—Continuously variable.

FIRE UNDERWRITERS FULL APPROVAL.

SPEAKER—12" Superpower Electro Dynamic.

TUBE COMPLEMENT AND FUNCTIONS—6A7 Converter (1st detector and oscillator) double purpose tube; 6D6 I.F. amplifier (456 K.C.); 85 2nd detector, A.V.C. and 1st audio amplifier (triple purpose tube); 2 76 Phase inverter power driver for push-pull output; 2 42 In push-pull class "A" power output circuit (Full 7½ watt undistorted output); 80.

CABINET—Rolled top and front of "V" matched choice walnut. Top and front pilaster are finished in a slightly darker shade and are vertically fluted to harmonize with the styling of the four speaker grille bars. Base is extruded and rounded at all corners. Entire cabinet is hand rubbed to a lustrous piano finish. Dimensions: 41" high; 23½" wide; 12½" deep.

SHIPPING WEIGHT—70 lbs.

Retail \$79.95

Hamilton Beach Food Mixer

Any Speed Desired
Steady Full Power at All Speeds

New
White and Black
Color

Hamilton Beach Model "D" Food Mixer With Attachments

Portable . . . mixes in any bowl or pan. One hand slides it on and off the stand, as easily as placing an electric iron on its stand. Bowl turns automatically at controlled speed. Motor tips back so beaters drain into bowl. Guarded beaters easily removed. Beaters always automatically adjusted to bottom of bowl. Single agitator for mixing drinks in a glass.

This new model is **not limited to any definite number of speeds**. The slightest change in the position of the speed control switch changes the speed of the beaters. For convenience the speed control is marked from 1 to 15. . . . The mixer maintains **constant controlled speed** of the beaters in heavy or light mixes at low or high speed. No slowing down when the mixture becomes thick or speeding up when adding milk or water.

Specifications

Beautifully finished in white and black, baked-on enamel. Cast iron base; steel beaters; rubber composition handle; 6 feet of rubber cord with moulded rubber plug; non-marring rubber feet. Beaters and guard are chromium plated. Height over all 12½ inches; base 12½ inches long by 7 inches wide. Two white mixing bowls furnished. Capacity 1 quart and 3 quarts. Hamilton Beach motor operates on A.C. or D.C., 105-120 volts, 25-60 cycles. WORM GEAR DRIVE (Hamilton Beach Patent No. 1738112).

Packed singly. Shipping weight 21 pounds each.

For a Cool Kitchen

No. KE9985. Electric Roaster Roasts — Bakes — Stews

CAPACITY—Large aluminum cooking well, 15½ in. long, 11 in. wide, 3½ in. deep, capacity 8 quarts. Aluminum inset pans: one 7½ in. long, 10½ in. wide, 3½ in. deep, capacity 4 quarts, equipped with bale handle; two 7½ in. long, 3½ in. wide, 3½ in. deep, capacity 1¼ quarts, equipped with detachable handles.

FINISH—Porcelain enameled heating well. Exterior heat resisting gun metal enamel. Base nickel plated and aluminum sprayed insuring rust prevention. Wood handles. Fibre feet. Chromium plated cover.

HEATING UNITS—Placed on sides and bottom. Side unit wire asbestos braided, wrapped around porcelain heating well and held in place with asbestos sheeting. Bottom element, between asbestos sheets, is held firmly in place in sheet metal casing.

SPEED COOKING—Asbestos covered unit wire wrapped directly upon heating well around sides and separate unit against bottom of well insure fast heating and quick roasting and baking results.

ELECTRICAL RATING—110-120 volts—1000 watts. A.C. only.

AUTOMATIC CONTROL—Temperature automatically controlled by thermostat and maintained at desired heat as indicated on the dial by the control knob.

SIGNAL LIGHT—Signal light indicates when roaster has reached its proper heat by flashing off. This indicates that the temperature of the cooking well is at the dial setting. During the baking and roasting operations the light will continue to flash "on" and "off" the same as any electric range oven pilot light.

TRIVET RACK—Roaster is equipped with wire trivet rack for placement of food above the bottom of the roaster. This allows even heat circulation around food and prevents burning on bottom.

Equipped with 6-foot art silk cord. Weight packed 28¼ lbs.

Genuine SILEX Coffee Makers

It is fascinating to watch these new Silex make coffee, but it is more of a thrill to taste the clear delicious coffee that they produce. "Silex" leads the field of vacuum coffee makers. They are used in the finest hotels and clubs. Now they can be used in any home.

Boiling Spoils Coffee

The coffee bean contains aromatic oils and tannic acid. Aromatic oils impart the delicious flavor to the drink and tannic acid the disagreeable. Aromatic oils being very volatile, evaporate quickly if the coffee is boiled and are thus lost; at the same time boiling extracts an excessive amount of tannic acid which is left in the beverage. The finest and costliest grade of coffee will produce the poorest drink if boiled.

It Is Impossible to Boil Coffee in the Silex

No. KG8. Silex Everyday Kitchen Model
Coffee Maker

8 Cup Size

Use directly over the open flame, either gas, electric or oil stove. Genuine Pyrex glass that can be used without protective plate on the stove. 8-cup size in Black trim. Beautiful table mat free with this popular model.

Coffee Maker
8 Cup Size

A popular priced model with compact pedestal type stove, yet like all Silex Electric stoves, it has the "quick cooling" feature that controls the period of infusion between the water and the coffee. Handle, neck collar, top and stove base furnished in Black bakelite.

Each \$7.50

No. KLE82.
"Lido" Model Silex Coffee Maker
8 Cup Size

A distinctively new note for those who desire the finest. 550-watt stove is efficient and exceedingly good looking. The metal decoration for lower bowl matches in motif the pattern of the stove. The feet on the stove, the knob on the cover and the ring insulating the handle and holding the lower shell in place are all ebony composition. Women will be proud to use the "Lido" model on their dining table or in the living room for after-dinner coffee. Made in non-tarnishing Chrome.

Each \$15.50

**No. K7716. Universal Electric Iron
Automatic - Wrinkle-Proof**

Dial heat regulator gives any ironing temperature between 600 degrees and 350 degrees F. Automatic temperature control prevents overheating. One piece clear mica nichrome wire unit with one-third more wire than ordinary units. Black and White handle perfectly balanced. Wrinkle-proof round heel irons backward and sideways as easily as forward without wrinkling the fabric. Tapered point and beveled edges slip under buttons and into pleats. Lustrous Chromium finish will not tarnish or rust. Best quality flexible 6-foot cord. Weight 6 pounds. Watts 700. Retail price, \$5.95.

Each \$6.60

Universal Iron—Streamline, Wrinkle-proof, Automatic

The modern trend is toward streamline styling, and UNIVERSAL with this New Adjustable Automatic Wrinkle-Proof Iron is the last word in design. The perfected ROUND HEEL and hard, highly-polished Chromium Finish—STAIN and RUST-PROOF—gives a free, easy-gliding surface. There are no sharp edges to catch and wrinkle the cloth. It irons backward and sideways as easily as forward. The finger-tip Automatic Control provides just the right heat for every fabric from dainty silk lingerie to heavy, damp linens, while large or small pleats are just no problem at all for the tapered-to-fit point of this modern SPEED IRON. Air vents at front and back keep the handle comfortably cool even during long ironing periods. Beveled Edges slip easily under small or large buttons. Non-Skid Heel Rest prevents iron from sliding off board and possible accidents. Permanently attached trouble-proof 6-foot cord is protected by a coil spring to eliminate strain and wear. Operates on A.C. only.

	Weight	Watts	Weight Packed	Each

Pitt Focalipse Electric Heater

The Pitt Electric Heaters supply the demand for a heater that appears in good taste alongside the best household fixtures—that will last from one season to the next—that will provide the maximum heat radiation for the current consumed.

The Pitt Electric Heater is scientifically designed to control all the heat rays. The rays cover effectively, three times the area covered by an ordinary heater.

NOTE: The utility of a reflector type heater is confined to the area covered by the efficient heat rays. Warn customers against burning heater in large room when no one is in the ray spread, as the heat is practically wasted. The heat rays from a 12-inch heater will cover uniformly two people seated at a distance of seven feet. The rays from a 14-inch heater will cover uniformly four people at a distance of ten feet.

All parts are guaranteed against defective workmanship and material. The heating element will be replaced should it prove defective within three years. Reflector is Chrome; finish, green lacquer.

	Size	Watts	Volts	Retail Each	Each
No. KCR106-C	12-inch	660	115	\$6.45	\$ 8.50
No. KCR109-C	14-inch	1,000	115	7.95	10.40

**No. K7703. Universal Iron
Featherweight—3 ½-Pound Full Size**

Wrinkle-proof model. Famous wrinkle-proof round heel will not wrinkle fabric on back stroke. Finely tapered point and beveled edges. 580 watts. Large unit heats iron quickly and distributes heat evenly over entire surface.

Unlike other light weight irons which are made with an aluminum sole plate to lighten their weight—this New Universal has an Iron Sole Plate—just like regular Universal 6-pound irons, but of lighter weight and with a lighter weight reinforced pressure plate.

Aluminum sole plates being of soft metal scratch very easily; will not hold a chromium finish under the heat; and when put down on a button or pin are easily dented or pitted. The Universal Iron Sole Plate overcomes all these objections and its Diamond Luster Chromium finish will not rust or tarnish. It will retain its gleaming luster indefinitely.

Each \$4.70

No. K9147. Universal 3-Heat Heating Pad

A pad of quality, with three heats controlled by switch in cord. Two thermostats provide heat regulation. Watts, 65-40-25; voltage, 100-125 A.C. or D.C. Peach eiderdown cover. Complete with removable muslin cover for dry applications. Cellophane wrapped. Packed one in a carton. Weight, 2 ¼ pounds.

Each \$4.70

No. KE9920. Three-Heat De Luxe Heating Pad

Four thermostats, twice the number in most so-called three-heat pads, positively hold any one of three heats. The heat desired is always under perfect control of the user. In the dark, position of control lever can be determined by raised projections on switch. Preheaters on thermostats prevent over-loading and over-heating. Best quality asbestos wound units. Cover of fine quality green double-nap blanket cloth, with cord to match. Furnished with removable Waterproof Cover and Washable Muslin Slip Cover. Safe, sanitary heat for wet or dry applications. Each pad equipped with best quality, asbestos wound, nine-foot cord. Made in conformance with Underwriters' specifications. Non-radio interfering. Weight, packed, 2 ¾ pounds. Watts, 65.

Each \$7.60

Model No. K10L Hamilton Beach Cleaner, 2-Speed Motor With Light

Retails for \$59.50

This cleaner features—

- A light that throws brilliant illumination on the rug
- No radio interference
- 2-speed motor—switch on motor
- Ball bearing motor—no oiling
- Chromium handle and trim with switch on handle
- Toe-action nozzle adjustment
- Beating—Sweeping—Suction

This cleaner is most efficient. The regular speed provides ample power for all ordinary cleaning. The super-speed is held in reserve for extra heavy rugs or difficult cleaning jobs.

SPECIFICATIONS

Hamilton Beach Motor—9,000 R.P.M. on super speed; 6,700 R.P.M. on regular speed. Current consumption of 2.3 amperes on super speed, 1.4 amperes on regular speed. Operates on 105-120 A.C. or D.C., 25-60 cycles. Precision ball bearings. Oversize armature, 36-bar commutator, mica insulated and undercut. Always runs cool. Long life is assured. Only $7\frac{1}{4}$ inches high—goes under low furniture.

Brush—Cleans an area 14 inches wide at each stroke over the rug. "Fool-proof," cannot be put on wrong. Finger-tip adjustment for wear on bristles is made without removing the brush. Polished metal for cleanliness and strength. Wire guard holds rug right distance from brush for greatest efficiency.

Rubber Bumper—Effectively prevents marring of furniture, baseboards and woodwork.

Chromium Plated Handle—Automatically held in upright position when not in use. Pressing down on handle tilts nozzle from floor.

Rubber Cord—Full length (20 feet) with unbreakable moulded rubber plug. Approved by Underwriters.

Self-Lubricating Wheels—Insure quietness. Four-wheel carriage designed especially for extreme ease in operating. Both rear wheels are swiveled. Front wheels are back of nozzle.

Fan—Extra strong cast-aluminum, perfectly balanced, with blade curvature scientifically determined for maximum quietness.

Bag—Smart looking and well designed. Beautiful dark blue material that retains its appearance of newness and cleanliness. Throat-flap at intake prevents dirt from falling out when bag is removed.

Shipping weight, $20\frac{1}{2}$ pounds.

Single lots, Each \$67.60
In lots of 3, Each 62.40

Extra Rubber Belts

Each 30c
Dozen \$3.00

Model No. K8 Hamilton Beach Cleaner

Retails for \$34.75

Here is a cleaner light in weight, with Beating—Sweeping—Suction action. No cleaner at any price cleans quicker, easier or more thoroughly. This vacuum cleaner challenges comparison for quality and efficiency regardless of price.

SPECIFICATIONS

Motor-Driven Beating Brush—Cleans extra wide area, 13 $\frac{1}{2}$ inches. Bristles selected and set for vigorous beating action. Finger-tip adjustment for wear on the bristles, made without removing the brush. Brush may be removed easily, and cannot possibly be put in wrong.

High Quality Hamilton Beach Motor—Large motor with great reserve power.

Precision Ball Bearings—Motor never needs oiling.

Definite Nozzle Adjustment—Turning a little knob gives the right position for long or short nap rugs. The different positions are plainly marked and easy to see. These definite positions eliminate the guess work present in thumb-screw type adjustments. It's so easy to get the proper adjustment every time—the Hamilton Beach glides without effort because the nozzle never drags on the rug.

Handle—Trigger switch. Pressing down on handle tilts nozzle from floor—a great convenience in cleaning small or fringed rugs.

Only 6 $\frac{3}{4}$ Inches High—Goes under low furniture without marring.

Rubber Bumper—Protects furniture, baseboards, and woodwork.

A Rubber Cord—Full length (20 feet) with unbreakable rubber plug.

Self-Lubricating Wheels—Insure quietness.

Fool-Proof Belt—Jumps off if put on wrong.

Extremely Easy to Use—Light weight, only 13 $\frac{1}{2}$ pounds; 4-wheel carriage with front wheels back of nozzle.

Shipping weight 21 pounds.

"Sterling" Carpet Sweeper

Each \$4.30 Dozen \$24.00

An expensive looking, well made, efficient sweeper at a low price. Ball-bearing brush with Chinese bristles, wired into the hardwood roller. Full sweeping width of 11 1/4 inches. Steel disc wheels with soft rubber permanently vulcanized on. Beautiful quarter-matched Butt Walnut design or new Delphinium Blue color steel case. Nickel plated wheel guards and metal trim. Separate non-projecting dump levers for each pan. Packed in individual cartons, 6 cartons to a case. Weight, 87 pounds per dozen.

"Champion"

Each \$4.50 Dozen \$50.00

A decidedly well made and most attractive low priced sweeper in the modern low case style. The distinctively shaped steel top, wood ends and sides are finished in a rich, deep green enamel. Nickeled bail and fittings, and a light tan braid band with rubber corners, complete the color scheme. Size 13 1/2 x 9 1/2 inches. Weight 79 pounds per dozen.

Bissell's "Reliance"

Each \$5.50 Dozen \$62.00

A very smart full length sweeper with low steel top body in glossy black baked enamel. Full plywood frame (ends and sides), nickeled fittings, black and white braid band and rubber corners. "Broom-Action" (T. M. Reg.) insures good sweeping performance. A dependable Bissell product. Length 15 inches. Weight 83 pounds per dozen.

Bissell's "Century"

Each \$5.80 Dozen \$66.00

An outstanding sweeper value; attractively modern in appearance. Built and finished like a Pullman, with auto body steel top in grained burl walnut finish. Rolls like a Pullman—with "Cyco" Ball Bearings; best quality bristle brush, rubber corners, non-projecting dump lever, etc. A fine value in the lower price range. Length 14 1/2 inches. Weight 81 pounds per dozen.

Bissell's "Utility"

Each \$6.30 Dozen \$72.00

A new, low, curved top ball bearing model of proved popularity which is rapidly coming into favor as the leading sweeper in its class. In sweeping ability on various surfaces, in general worth, reputation, and salability, it excels any other than the advanced Bissell "Hi-Lo" models. Plywood case with Mahoganyized gloss varnish finish. Has nickeled fittings and rubber corner cushions. Pans empty together. Not a "cheap" sweeper, but a reliable one at a low price. Length 14 1/2 inches. Weight 75 pounds per dozen.

Carpet Sweepers

Nationally Known — Fast Selling

New, Improved Bissell's "Grand Rapids"—
Chrome Plated

Always the largest selling sweeper because of its popular price coupled with the best mechanical construction. It is now thoroughly modernized with a lower case of more attractive lines, newly designed fittings, new lettering, etc. Its further mechanical improvement includes wider and lower pans and new type Corner Cushions that will positively stay in place. It is "Hi-Lo" Ball Bearing, and has best quality bristle brush, etc. It not only is new and better, but it looks new, which will make it sell to present owners of old model sweepers. Regularly supplied assorted in Autumn Brown and Mahoganyized Birch Plywood in gloss varnish finish and with chromeplate fittings. Both pans dump at once. Length 15 inches. Weight 83 pounds per dozen.

Bissell's "Silver Streak"

Each \$6.80 Dozen \$78.00

An ultra-smart sweeper with real eye appeal. Two inches shorter and also lower than other models. Plywood case in bright silvery finish, red wheels, brush pulleys, and end bars. Bail and other fittings bright chromeplate. "Hi-Lo" Ball Bearing. Newest type rubber corners. Non-projecting dump lever which empties both pans at one time. Pure bristle brush. Length 13 inches. Weight 75 pounds per dozen.

Bissell's "Sweepmaster"

Each \$7.90 Dozen \$92.00

A proved favorite of modern sweepers. A fast seller everywhere. Its modern symmetrical lines . . . mellow, silvery finish . . . brilliant, non-tarnishable chromeplate fittings, enlivened with rich black and orange trim . . . create a display that is strongly appealing. Its sturdy plywood case, end mechanism protected by strong steel plates insures lasting beauty and efficiency. Of course it has the exclusive "Hi-Lo" brush control. Very best bristle brush; handle to match body. A high-unit sale carrying a good mark-up—an assured profit. Length, 15 inches. Weight, 78 pounds per dozen. Retail price, \$5.95.

Bissell's "Vanity"

Each \$8.30 Dozen \$96.00

Here is true Bissell efficiency modernly designed. The "Vanity" has a smart streamline case and finest mechanical construction including "Hi-Lo" Ball Bearings, one-piece gray rubber bumper of pillow softness, and a built-in brush cleaner that in turn is self-cleaning. All mechanism completely encased in the strong veneer body with metal ends. Flowing lines reflect the grace of modern fleetness. Made in three alluring colors: Catalina, Riviera Green, and Ebony Black—each smartly embellished with chromium plated bands and bail. Best quality throughout.

Bissell's "Queen"

Each \$9.00 Dozen \$104.00

Comb Cleaned Brush
A beautiful pattern combining the most attractive and best features of the former "Queen" and "Princess" models. Modern low case of Figured Maple veneer in high-lighted, rich brown, gloss varnish finish with rubber bumper all around. Graceful bail; end plates and other fittings in chromeplate. "Hi-Lo" Ball Bearing and best quality bristle brush, comb cleaned. Pans empty separately. An excellent "gift" sweeper. Length 15 inches. Weight 88 pounds per dozen.

Bissell's "Broad-Way"

Each \$10.30 Dozen \$120.00

This sturdy and durable hotel size sweeper has been designed with lower case, non-projecting dump, and other improvements. Compared with domestic size sweepers, it is two inches longer or 17 inches overall with brush of 20% and pans of 40% greater capacity. Birch plywood case in Brown gloss varnish finish. Fittings—combination satin black and chrome. "Hi-Lo" Ball Bearing. Weight 108 pounds per dozen.

Bissell's "Little Helper"

A colorful little sweeper of real charm—made in three lively animal designs (assorted at random)—piggy, playful pups, and bunnies. Modern, curved top in pleasing and harmonizing colors, with contrasting hues on ends, wheels, and handle. The graceful little bail is nicked. Entirely free from sharp edges. "Little Helper" is fitted with a real bristle brush that sweeps and pans that empty. It is 7 by 4 1/2 by 2 inches. Has 24-inch yellow handle.

Per Case of 12 \$4.00

Bissell's "Little Gem"

A real delight for little girls who want a sweeper—like Mother's. "Little Gem" is made in two gay designs—the "duck family" and "Mary and Her Dog" (packed assorted)—colorful and dainty, yet strong and durable. Modern streamline case simulates the very latest full-size sweepers. Just the edges of the red disc wheels protrude from behind bright nicked wheel guards; graceful bail is nicked too; the real bristle brush sweeps and dust pans open. No sharp metal edges to cut playful hands. Size 8 by 4 1/2 by 2 inches. 27-inch glossy red handle to match wheels and top design.

Per Case of 12 \$8.00

Bissell's "Little Queen"
Miniature Sweeper

There's a real thrill for the juvenile housekeeper in the "Little Queen." It sweeps surprisingly well, making it really most useful for picking up crumbs, ashes, and other litter. Bright red, steel top in most modern design; black metal guards cover ends, revealing just a sparkle of red wheels with rubber tires. It has a grey protector band, rubber corners, and bright nicked bail; also the latest patented emptying device—simply hold over waste basket and press on top of case. The real bristle brush has "broom action," adding to its sweeping efficiency. Size 9 by 5 1/4 by 2 3/8 inches, with 27-inch black handle.

Per Case of 6 \$8.00
Per Case of 12 \$15.60

COILED WIRE RUNS THROUGH ENTIRE LENGTH OF TIRE

Taylor Tots

New Improvements for Baby's Comfort

Standard Taylor Tot

No. K1-4. Aqua Green and Ivory

For those parents interested primarily in the Baby Walker feature, this attractive model is offered. While low cost is the keynote, the Standard Model nevertheless is a full-size walker of sturdy, graceful construction and with the smooth, gleaming finish which is so characteristic of all genuine Taylor-Tots. Stroller usage is provided by the detachable pull handle. Comfort is assured by the rounded seat board, widely spaced wheels which prevent tipping, and by the general design which conforms perfectly with baby's walking actions. Features added this year include a rubber-covered front bumper, play beads, perforated and embossed back rest, and the new streamline rosette. Packed 3 in a carton. Weight, 32 pounds. Sold in lots of not less than three.

De Luxe Taylor Tot

No. K3-3. Morocco Brown and Ivory
No. K3-4. Aqua Green and Ivory

The De Luxe Model is characterized by construction refinements and exceptional quality, in-built from top to bottom. This year a completely new front section with larger and sturdier casters has been added to provide even longer wear during both Baby Walker and Stroller usage. A new foot support with inclined front and rear keep baby's feet in place. The rigid push handle locks securely on lifting brackets. Coiled spring shock absorbers are mounted over the buoyant rear axle. Large round edged play tray, over-sized tires front and rear. Front casters 4 1/4 in. Rear wheels 5 in. Packed three to a carton K. D. Weight 52 lbs.

De Luxe Taylor Tot

No. K4-3. Morocco Brown and Ivory
No. K4-4. Aqua Green and Ivory

With mileage-tested, jumbo size, semi-pneumatic tires setting the pace and adding so much to the comfort and quietness of the ride, this fine model offers an array of features which make it an exceptional value. The V-shaped front and beaver tail rear provide a triple height adjustment which is most important in fitting baby properly during early growth. Additional features are large front casters, coiled spring shock absorbers and extra sturdy push handle. Double disc wheels, 5 1/4 in. front and rear with 1 in. semi-pneumatic tires. Packed one in a carton K. D. Weight, 23 lbs.

No. K55FV-21. Dutch Colonial 8.90

Babyguard High Chairs

America's Safest High Chairs

The Only High Chairs with the Patented SANITRAY

Babyguard high chairs offer the mother the assurance of complete safety for the baby. The bases are at least 10% wider than most chairs and, together with their extra heavy construction, they are absolutely tip-proof. All of them have the patented SANITRAY which slides on easily, adjusting itself close to baby's body and locking in position to prevent baby from falling out. SANITRAYS are chip-proof, stain-proof, self-adjusting and cannot be pushed off. Can be washed in soap and water.

Babyguard High Chair

A new and attractive high chair with fluted legs which are widespread to prevent tipping. Rectangular shaped removable SANITRAY. Adjustable foot rest. Transfer decoration on the back. Finished in Dutch Colonial (Natural Waxed) or Old Colony Maple. Shipping weight, 20 pounds.

No. K59FW-7. Old Colony Maple..\$10.90

No. K59FV-21. Dutch Colonial..... 10.30

Babyguard High Chair

A most moderately priced Babyguard. Legs and back posts are semi-octagonal, the back has shaped spindles. Extra strong under construction. Equipped with square SANITRAY. Choice of finishes, Dutch Colonial (natural waxed), Old Colony Maple. Shipping weight, 15 pounds.

Each

A
Genuine
Bathinette
Trade Mark Registered U.S. Patent Office and in Canada

Genuine "Baby Bathinettes" are superior to all other baby baths. These exclusive features make them outstanding:

- 1—Tub is FULL SIZE and made of heavy rubber, GUARANTEED for ONE YEAR.
- 2—Flexible dressing table with cross rails entirely removed. Locks automatically over the tub and cannot slide backward. Equipped with REMOVABLE WASHABLE CANVAS, as easy to remove and launder as a window curtain.
- 3—Safety strap, with arm holes, is bound with fast color bias binding. Canvas is soft and closely woven to protect the tender skin of the little one.
- 4—Patented Faucet Connection adapted to fit all faucets, bath tub, basin or kitchen sink faucets.
- 5—Cretonne Guard is mounted firmly on the frame and held upright at all times.
- 6—A strong, heavy bar for towels extends across the front, and holds the soap tray in position.

Genuine "Baby Bathinette"

No. K324-2. Ivory No. K324-9. Pink

With Baby Shower Spray
With Rubberized Hammock
With Felted Cotton Oil Pad

This de luxe "Baby Bathinette" is complete in every detail. A bath spray is built into the tub—on a separate hose—not with the drain hose. A rubberized hammock is also included. Still another part of the equipment is the soft felted cotton pad with tapes to tie on the top of the dressing table. These launder more easily than the canvas and save it from soiling. Hardwood frame, finished in Ivory. Rubberized tub in either Ivory or Pink. Tub, 16¼ inches wide, 31½ inches long and 10 inches deep. Height of table from floor, 36 inches. Packed one in a carton. Weight, 19 pounds.

Each \$9.90

No. K2232-7. Maple Youth Bed

A strikingly new design with modern head rail treatment and Tyrolean Childrens decoration on the wide head and foot panels. Semi-bow end on the foot. Removable half sides. Size, inside, 33x66 inches. Height, 43 inches at the head and 30 inches at the foot. Depth, 16 inches. Packed one in a carton, K. D. Weight, 91 pounds.

Each \$35.50

No. K448. Roll-edge Mattress. Size 30x64 inches. Each \$8.90

Youth Beds

Are very practical. They can be used until the child is practically 14 years of age. On three of these models the half-sides can be removed easily when the child outgrows the need for protection.

No. K2134. Maple Youth Bed

This is the youth bed to fill the need for a less expensive number. Made of selected hardwoods, finished in Maple. Full sides. Floral decoration on head. Size, 30x62 inches. Height, 35 inches at the head and 28 inches at the foot. Depth, 16 inches. Packed one in a carton, K. D. Weight, 54 pounds.

Each \$15.90

No. K446. Mattress. Size, 28x60 inches. Each \$8.90

Youth Beds

Are made with the same precision of care as regular pieces of furniture. Patented safety bolt construction eliminates any possibility of wood splitting or bed coming apart—an essential for boisterous youth.

No. K2213-7. Maple Youth Bed

A youth bed in a style that has proven to be an excellent seller. The wide head and foot panels are decorated with a novel decoration which will appeal to the child. The half sides are removable. Size, inside, 30x62 inches. Height, at head, 37 inches; at foot, 30 inches. Packed one in a carton, K. D. Weight, 68 pounds.

Each \$21.90

No. K446. Roll-edge Mattress. Size, 28x60 inches. Each \$8.90

No. K2187-2. Ivory

Youth Bed

No. K2187-7. Maple

Note the classic simplicity of line—the clever teddy bear and toy doggie designs on the wide end panels—the semi-bow end on the foot—the deeply grooved top rails on the ends. Equipped with half length removable sides. Size, inside, 33x66 inches. Height, 41 inches at the head and 29 inches at the foot. Depth, 16 inches. Packed one in a crate, K. D. Weight, 85 pounds.

Each \$29.50

VOLKER

SMART METAL PHOTO FRAMES

In fashioning these deluxe frames, art for art's sake is sidetracked for art that appeals—as you will readily experience with a complete stock of these perfectly executed patterns. The most highly skilled craftsmen in the art have worked with the finest of materials and facilities to give you frames that embody salability above all else.

**DISTINCTIVE GLASS MATS MAKE
THESE PATTERNS SPARKLE WITH
SALES APPEAL**

Metal Photograph Frame

No. K119. Gold Plate, Ivory Glass Mat
No. K119½. Silver Plate, Black Glass Mat

The finely embossed metal of this frame is enhanced by the colored glass mats. The design is very refined and finished in the finest plating. Fitted with glass and velvet removable easel back.

Size	Each
7½ x 9½ inches	\$3.30
10 x 13 inches	4.70

All Volker frames have accurately fitted velvet sliding easel backs.

Metal Photograph Frame

No. K127. Gold Plate
No. K127½. Silver Plate

The duo-colored glass mat adds a note of distinctiveness to this beautiful frame. The bottom half of the mat is black and the top, ivory. The plated metal is embossed and the ornaments are overlaid. Fitted with glass and velvet sliding easel back. Size, 7½ x 9½ inches.

Each \$4.30

Metal Photograph Frame

No. K126. Gold Plate
No. K126½. Silver Plate

An unusually artistic frame with combination colored glass mat. The sides are ivory and the top and bottom under the embossed grill work are black. Fitted with glass and velvet removable easel back.

Size	Each
7½ x 9½ inches	\$4.30
10 x 13 inches	5.50

Metal Photograph Frame

No. K128. Gold Plate, Ivory Glass Mat
No. K128½. Silver Plate, Black Glass Mat

A beautiful metal frame finished with non-tarnishing plated finish. The colored glass mats accentuate the artistic designing of the frame and at the same time set off the photograph. Overlaid corner ornaments. Fitted with glass and velvet sliding easel back. Size, 7½ x 9½ inches.

Each \$3.70

The good taste of Volker frames means that you can safely carry a large selection.

Metal Photograph Frame

No. K121 Gold Plate
No. K121½ Silver Plate.

A distinctive frame of ⅞-inch plated metal, finely chased with overlaid corners. Fitted with glass and velvet sliding easel back.

Size	Each	Dozen
7 ½ x 9 ½ inches	\$2.00	\$21.60
10 x 13 inches	3.30

NEW REMBRANDT PICTURE GLASS

The Whitest of All Picture Glass

A good picture and a good frame certainly deserve a good glass. Give your customers as clear and as flat a glass as possible. "New Rembrandt" is a glass embodying these features. Most of the greenish cast, so common to cheap glass, has been removed. Your customers cannot fail to notice the difference. Waviness in glass ruins the beauty and symmetry of a picture. "New Rembrandt" being flat preserves the picture's true lines.

"New Rembrandt" is used by all high class art dealers and framers. Each light is carefully selected and packed with paper between each light in specially made boxes.

Note the amazingly low prices.

Marsh Mitre Machine and Vise Combined

Can be placed on any table, bench or counter, and in any position. Made entirely of Iron and Steel. The best machine in the world for the price. Because—

It is the only machine with which the moulding can be sawed from the back or outside as well as from the front or inside.

It is the only machine with which the ends and sides of a frame can be measured and cut from one way as well as the other, thus admitting of the machine being placed in any position at either side or end of the bench, where the best light can be obtained and at the same time the most convenient room for full length of moulding.

It is the only machine for making frames, yet invented, which can be adjusted from a horizontal position for sawing the sides and ends of the frame to a perpendicular or any other position convenient for boring and nailing; thus enabling the operator to complete the frame while working in a natural, easy manner.

Turns to right or left to any desired angle while in a horizontal position for sawing the different mitres.

Also turns to right or left when in a perpendicular position for boring and nailing.

It is the only machine of the kind furnished with a rule and measure gauge so arranged as to measure and gauge from either side of machine alike. Anyone who has ever made frames can see the advantage of a rule which can be adjusted to either side of the machine; also the necessity of a gauge in order to cut the two sides or ends of a frame and get them exactly of a length.

The bed plate is 3½ inches above the bench and the extreme measure of same is 15x25 inches. The machine weighs 20 pounds yet it is so constructed that it is stronger where strength is required.

The vise screws are made of steel, and in every way the best vises or clamps for holding the moulding and frame in place ever made.

You can do anything with this machine that can be done with any other frame machine, quicker, easier and better. The machine, with ordinary use and care, will last for twenty years. We guarantee every machine to work satisfactorily.

Each machine has an extra pair of low clamp irons for Florentine and shell mouldings, which can be placed in position in an instant.

Machine cuts any moulding less than 5 inches wide, and will join any size frame larger than 7½x7½ inches. Weight packed for shipment 40 pounds.

Price of machine, with 4½x26-inch Saw, \$38.00

Price of Saw only, \$11.00

The New Marsh Picture Frame Vise

Nothing of the kind, or half so complete ever before on the market.

It meets the demand for a frame clamp in every instance. No matter what kind of a mitering machine one has—or even if you are using the old-fashioned mitre box—the frame can be held in proper place for nailing perfectly, and with the greatest ease possible.

The Vise has the same swivel and tilting attachments—in fact, the same base as the Marsh Mitre Machine—and a frame can be swung or tipped IN ANY POSITION a person desires, either in a horizontal or a perpendicular. It takes in small and large frames alike—as small as 4x4 inches, and from this to the largest size.

It takes in any kind of moulding 4 inches wide or under. It is light, well made and strong. Shipping weight 19 pounds.

Each \$14.00

Write for Our Minute Man

Sample Case of Picture Frame Mouldings

Set No. 1. For your convenience, upon request, we will be glad to send you "Our Minute Man" case of sample mouldings. The case contains about 500 samples of our best selling mouldings. Picture framers and art shops have welcomed this silent salesman many times. We are pleased to comply with your requests. (When selection is made, the samples are to be returned to us.)

Free Samples

Set No. 2. This small box contains about 100 samples of our most popular mouldings. It is absolutely free and may be retained by the customer. When in need of moulding ask for our Free Sample Case. It will be forwarded immediately.

Our salesmen carry a complete sample line of mouldings. These are 6 inches long so that you may see the full pattern. They will be glad to show these to you.

No. K2. Red Devil Fitting Tool

This is the biggest time saver for fitting picture frames that has ever been made, and you can make a much neater job.

Our special driver is equipped with an ingenious framers' nose plate and special drive plate which permits points to be driven over rough or yielding surfaces and allow the driver to function perfectly when tilted as shown in the illustration.

For the framer this is an indispensable tool for rapidly and firmly setting backs in picture frames, mirrors, etc., of any size.

For the glazier it is an equally indispensable tool for setting panes of any shape or size. Particularly serviceable for glass smaller than 6-inch.

Price, Each \$9.90

No. K2 $\frac{1}{2}$. Ste-like Points

Per Box 4,000 \$1.80

No. K8. Patent Universal Diamond

Hold the Diamond as shown in cut (against the ruler). Place it perpendicularly on the glass, so it rests on the Diamond and guide-wheel—the wheel towards you. Press on it gradually, until it makes a singing sound, not a harsh noise.

Draw over the glass slowly and uniformly; never cut twice in the same place. The Diamond is set in such a manner that the most inexperienced can use it with success.

Standard Clamp—Machine Tested

The Standard Clamp is preferred by larger users of such tools, because of its superior design and construction. Frame is of the best grade of malleable, heavily reinforced, and so shaped as to give greatest strength for the metal used. The large diameter heat treated steel screw will not break. Double "Acme" thread and long bearing. Oscillating ball-socket tip. The best on the market.

	Opening	Depth	Weight	Each
No. K5404.	4"	2 1/8"	24 oz.	\$1.20
No. K5406.	6"	2 3/4"	36 oz.	1.70
No. K5408.	8"	3 1/4"	58 oz.	2.50

No. K610. Clamp Fixture—Without Pipe

A new clamp fixture to be used with 3/4-inch pipe. Frame is threaded to fit standard pipe threads. The slide slips over the other end and can be quickly and easily adjusted to any position on the pipe and is securely locked by hardened steel plates gripping the pipe. IT WILL NOT SLIP. Set consists of irons complete to make one clamp (without pipe).

Set \$2.50

Perfection Clamp

This is a strong, durable, convenient, general purpose clamp. It is especially useful in all wide clamping, such as sash, doors, blinds, furniture, etc. The base is of high carbon manganese steel, giving great strength. Crank, frame, tip and slide are of the best grade malleable iron. Dog for slide is of tempered steel. Heat treated steel screw has deep cut "Acme" thread with extra long bearing. 5/8-inch screw. Clamping surface 2 inches deep by 1 1/2 inches wide. 1 1/2 x 1/4-inch bar.

	Weight	Each
No. K440. 3-foot.....	7 1/2 lbs.	\$4.70
No. K442. 4-foot.....	9 lbs.	5.00
No. K444. 5-foot.....	10 lbs.	5.50

No. K615. Clamp Fixture Without Bar

Designed especially for light cabinet work, sash, door and blind clamping, etc., where speed and rapidity of handling is important.

Frame, tip and slide are malleable iron. Screw is heat treated steel, 1/2-inch in diameter, and has deep cut "Acme" thread.

The hand wheel adjustment enables the operator to quickly twirl the screw to position and gives a good hand grip for tightening. Quickly and easily attached to any wood bar 1 1/2 x 2 1/4 inches.

Per set, Iron Fixtures only (without bar) \$2.30

"Yankee" Screw Driver—Standard Style

A strong, durable, well-balanced tool. The fastening of blade and handle is such that they cannot be loosened in use, or even in the usual abuse. Finely polished blade and ferrule. Hardwood handle finished dull black. Thoroughly tested and guaranteed in every particular as to quality.

	Length of Blade	Weight Per Dozen	Each
No. K90-4	4-inch	2 1/2 lbs.	\$0.80

No. K11

"Yankee" Ratchet Screw Drivers

Ratchet screw drivers save time and energy. One grip on the handle is all that is needed; the "Yankee" does the rest. The ratchet mechanism works easily and is practically noiseless. The blades are of cast steel. Smoothly finished, hardwood handles.

No. K12.	1 1/8-inch blade	Each \$1.70
No. K11.	6-inch blade	Each 1.80

No. K30A. Spiral Ratch Screw Driver

Drives or draws screws, simply by pushing handle. Right, left and rigid adjustments. Made of best steel with smoothly polished hardwood handle. Length of bit extended, 18 1/4 inches; closed, 13 inches. Three bits of different widths supplied with each tool.

Each \$4.90

No. K33H. Spiral Screw Driver

The "Handyman" Yankee Spiral Ratchet Screwdriver. Drives or draws screws simply by pushing on handle. Bore holes same way when fitted with "Yankee" Chuck and Drill in place of blade. Length, including blade with spiral extended, 9 inches. Closed, 7 inches. Screw Driver with one blade.

Each \$1.50

"Yankee" Chuck and Drill Set

Consisting of chuck and 3 drills, 5/64", 7/64", 9/64".

Per Set \$0.64

No. K41. "Yankee" Automatic Drill

For boring in soft or hardwood without splitting. Can be used in many places where a gimlet, brace-awl or brace cannot be used. The drill point is revolved by pushing on handle, while a spring forces the handle back up. One push causes several revolutions of the drill point. The drill point revolves backward in upward movement to clear chips. Has nickel magazine in handle which holds eight drill points 1/16 to 11/64 included with drill. Entire length as cut 11 3/8 inches. Packed one in a box. Weight 10 1/2 ounces.

Each \$4.30

"Yankee" Drill Points

One set as shown, for No. K41 "Yankee" Automatic Drill. Can be supplied in sets, or in separate sizes in wood box.

Drill Points (any size)
Per Doz. \$1.92

No. K5A. DeBoer Short Rail Attachment for Displaying Wood Beds

Properly curved hooks that cannot jump out or loosen are adjusted over the pins in the single or double hook bed lock and bed ends are drawn to frame by means of the turnbuckle. The short rails hold the bed ends rigid on casters or glides, so that beds can be displayed without danger of tipping and do not have to be leaned against walls or costly decorations when delivered in the homes. Natural finish. Length, 8 1/2 inches.

Per Pair \$2.80

Per Dozen Pairs \$28.80

No. K3A. DeBoer Adjustable Chair Stay and Furniture Brace

Can be quickly attached to any kind of chair or piece of furniture to support, strengthen, and make it secure. A simple twist of the turnbuckle with two bolts and channel irons, two steel chains and four hooks unite the four corners firmly together, making the furniture rigid. They increase the durability and add to the value of any piece of furniture.

The adjustable chair stay takes the rack and buckle out of old chairs. Makes them straight and rigid like new. They preserve the new chairs by keeping them rigid. A new chair cannot go to rack and ruin with this chair stay attached.

Each \$1.20

Dozen \$12.00

DeBoer Ever-tite Adjustable Bedstay Brace

Made so that it can be quickly attached to any size or make of bed. A simple twist of the handle on patented tightening device with two four-wire cables with special welded steel rings and eight hooks unite the four corners and side rails of the bed firmly together, making an easy rolling rigid piece of furniture that can be conveniently moved over rugs and floors without danger of wracking. Tightens the bed so slats of the bed can't fall out and strengthens the corner locks so the bed cannot break down and pull to pieces. They also increase the durability, make bed secure and add to the value of any wood bed.

Metal Bed Casters—Ball Bearing

A sturdy caster, resulting from improvements of many years. Steel or Universal (hard tread fibrous composition) wheels.

The size of the spring on metal bed casters is determined by the outside diameter of the tube into which the caster is to fit. If size is uncertain, cut a piece of cardboard to a long triangular shape. Insert the point into the tube as far as it will go and mark it. Mail it with your order. This will insure the proper size spring. Sold only in standard packages.

Handy Scratch Remover

or "first aid" to injured furniture. This article is almost indispensable around a furniture store to cover scratches and slight defects in the finish instantly, and is especially handy for the delivery man to cover up minor scratches that so often occur in the delivering of furniture.

Dozen	\$7.20
Each	\$0.70

Golden Star Refinisher

The most useful article in the store. Removes packing marks, lamp rings, hot dish marks, scratches and defects on varnished and lacquered surfaces. Easily and quickly applied with a cloth pad; dries instantly, dries hard; restores the finish, makes immediate delivery possible. Especially adapted in restoring the finish, after sanding and over places filled with Stick Shellac. Leaves no laps. Can be used on any finish with perfect results. Golden Star Refinisher is in a highly concentrated form and before using should be reduced by adding 3 parts alcohol to 1 part Refinisher.

**Golden Star Wood Stains
(Block Form) Just Right for Touching Up**

Blocks measure about $1\frac{1}{2} \times 2\frac{1}{2} \times \frac{1}{2}$ inches. Are superior to liquid stains as there is no waste to them, are true to color and always ready to use. Can be made into liquid form by dissolving in alcohol or Refinisher. Made in block form in Light Oak, Fumed Oak, Golden Oak, Red Mahogany, Brown Mahogany, Walnut, French Walnut and Black.

Each color packed in separate box.

Per dozen boxes \$10.00

Per Box \$1.00

Johnson's Wood Dye

Johnson's Wood Dye is put up in wide-mouth glass jars with a patent top. It is not a mere stain—it is a deep-seated dye, penetrating the pores of the wood and bringing out the beauty of its grain. It dries quickly and does not smudge or rub off. Do not confuse Johnson's Wood Dye with varnish stains or any other stains on the market.

Johnson's Wood Dye gives an unequalled richness of tone and permanency and a perfectly even color which will not hide the grain of the wood.

An inexperienced person can easily apply Johnson's Wood Dye, as it will not show laps like varnish stains.

Johnson's Wood Dye in the following colors:

No. K123.	Dark Oak.
No. K124.	Golden Oak.

Golden Star Dry Stains—Powdered

In repair work where color and shades are always to be matched and to avoid mussy and patchy results, stains of a higher quality than those used for covering should be used. Golden Star Dry Stains are selected for that special purpose and are full-strength Aniline Dyes, true to color and, being of the same uniform quality, they blend perfectly and are strictly soluble. Stain furnished soluble in water, alcohol or oil (turpentine, benzine, benzoil lacquer).

LePage's Heatless Liquid Solder

This heatless liquid solder is a silvery colored compound, which is especially adapted to fixing things because of its moisture resisting or water-proof qualities. Unusual as it may seem, you can bind different combinations of metals. It also will adhere to all ordinary surfaces—glass, wood, fabric, leather, aluminum, crockery, pewter, waterpipes, furniture, auto tops and many other materials. It is truly a worthwhile contribution to the emergency kit. One dozen 25c tubes attached to a display card.

Per Dozen \$4.00

LePage's Waterproof Glue

Waterproof glue in powder form made from Casein base. Has great strength and will withstand the action of moisture or humidity. Adapted for a large variety of uses including the repairing or manufacturing of cabinets, furniture, musical instruments or upon anything where moisture-proof glue is required.

10c size	Per dozen	\$ 1.60
½-pound size	Per dozen	6.40

No. KA1. LePage's Sizing Ground Glue

Especially adapted for sizing rugs, walls, ceiling or wallboard before papering. Thoroughly dependable. 1-lb. packages.

Per Pound \$0.46

Formula for Rug Sizing

Dissolve one pound of ground glue in a quart of hot water. Add two more quarts of water and let cool.

Apply to back of rugs with a paint brush. A very light coat should be put on first, allowed to dry, and a second coat added.

This is sufficient for a 9x12 rug.

Each \$13.90

Seid-Lac Four-Hour Enamel

For Woodwork, Walls, Furniture

Easy to apply—has great spreading capacity. Does not "pick up" undercoats or old finishes. For all interior finishing problems. It dries dust free in one hour and hard in four. Seid-Lac is ready for use as it comes from the can; simply stir well and brush it on.

Requires no special expensive thinner and has no objectionable odor. It brushes on easily and dries to a high gloss finish. Sets slowly enough that anyone can do a satisfactory job of finishing with it. Seid-Lac may be used over all paint, varnish or lacquer and on new surfaces of wood, metal, plaster or wallboard. Seid-Lac colors: Ivory, Cafe-au-lait, Chinese Yellow, Light Blue, Coral Pink, Apple Green, Pekin Orange, Orchid, Chinese Red, Jade Green, Pearl Gray, Rich Blue, Beige, Emerald Green, White, Black, Clear.

No. K416. Rubon Polish

For Your Fine Furniture, Woodwork, Floors

The polish that has been acclaimed for more than twenty years and now has more than a million enthusiastic users. Rubon easily makes possible a bright, new-looking finish that is absolutely clean, dry and free from any greasy film.

Rubon is NOT "just another polish"—it works totally unlike ordinary polishes. Rubon does not "polish" by coating the surface with a greasy substance that harms the finish and catches dirt—instead, Rubon **CLEANS** the surface and actually **REVIVES** and **PRESERVES** the original finish.

Scientifically prepared for fine finishes, Rubon is dependable, clean, trouble-proof—and it will not harm the most sensitive finish. Your customers will be delighted with Rubon Polish because it will do just what they know a good polish should do.

The Rubon Split Duster
Overall Length 15 Inches

The handiest duster for all around use. Very convenient for dusting chair rungs, spindles, bed ends, etc. The offset in the handle makes it equally efficient for dusting flat surfaces—no metal fasteners to scratch or mar.

The duster head is dry treated with Rubon, to make it pick up and hold dust—not scatter it. The duster head may easily be removed and washed or laundered.

	Each	Dozen

The RUBON LINE

MOPS, DUSTERS and POLISHES

The heads of all Rubon Dust Mops and Dusters, and the Dust Cloths, are chemically treated with Rubon Polish. This treatment leaves them perfectly dry, yet makes them pick up and hold the dust, until it is washed out. They will not become greasy or gummy, when treated only with Rubon Polish, in accordance with the directions given with each article.

Every Mop and Duster in the line has the removable and washable head, on which no metal fasteners are used. Each is well padded to prevent scratching the floor, woodwork or furniture.

A GUARANTEED LINE

If, for any reason, any of your customers are dissatisfied with any Rubon product, you are authorized to refund their money and send the article to us for replacement or credit. That is the Rubon guarantee.

The Rubon Aeroplane Mop

An extra wide dusting and polishing mop of superior quality designed for use in cleaning and dusting walls, ceiling and large floors, such as dance floors, gymnasiums, lobbies, bowling alleys, etc.

This mop is constructed on the same principle as the Rubon Wedge Mop, with self-adjusting polished hardwood handle, dry treated removable and washable head, without metal fasteners. The extra strong frame is of double wing type, 16 inches wide, giving the mop a spread of about 22 inches.

No. K102. Complete with 54-inch polished handle, (\$2.25 size).

Each \$2.90 Dozen \$32.40

No. K102A. Extra heads, each in carton, (\$1.50 size).

Each \$2.00 Dozen \$21.60

The Rubon Wedge Mop

Here is a dry treated dusting and polishing mop that you can recommend to your most critical customers because it is guaranteed to please every user. You are authorized to refund the full purchase price to anyone who is not entirely satisfied with the Rubon Wedge Mop, after giving it a fair trial.

Floors can easily be kept clean and glistening with the Rubon Wedge Mop. Being dry treated, this mop may be used for all dusting . . . on woodwork, walls, and the finest floors. The handle is self-adjusting . . . keeps the wedge shape mop flat . . . it will go under the lowest furniture, in the corners, on the stairs and other hard-to-reach places. The mop head is **WASHABLE** . . . easy to remove and replace . . . send it to the laundry or wash it in any manner. A trial will convince any user that the task of house cleaning will be reduced and simplified by using

No. K930. Floor Mop—"Wrist Action"

The wrist action is a 4-way action of the mop socket, multiplying the flexibility of the mop for use around furniture legs, along baseboards and in corners. A folding frame permits easy removal and replacement of the mop pad for washing, no prongs or strings. Pad made of highest quality yarn specially selected to absorb dust and lint. Packed one dozen in a carton. Weight, 22 pounds.

Dozen \$16.00

No. K16. Dust Mop—Special Value

Here is a quality mop to satisfy your "bargain" hunters. Heavy green wool yarn pad, 16 inches long. Adjustable handle gets under furniture with as low as 1 1/4-inch clearance. Solid Socket. 48-inch handle. Packed one dozen in a carton. Weight per dozen, 14 pounds.

Each \$0.50

Dozen \$5.70

No. K1705. Polish Mop

A mop with extra large spread of 17 inches. Improved patented steel center. Extra heavy reinforced handle connection.

The yarn is 2/2 ply and Cedar Oil treated. Weight, 20 pounds per dozen. Packed 1 dozen in a carton.

Per Dozen \$8.00

No. K508. Gold Seal Polish Mop

Latest style, reversible spring handle heart shaped polish mop. 13-in. spread. Cedar oil treated. Strong, durable, lint-proof yarn. Mop head may be removed for laundering. Two mops in one—may be reversed providing use on both sides. Cellophane wrapped. Weight, 20 lbs. per dozen.

Per Dozen \$11.50

**No. K808. Venetian Blind Duster**

Made of soft Goat Hair which picks up and retains dust, but will not scratch. The three-fingered brush cleans several slats at one time. The handle is 16 inches long, permitting the user to easily reach all parts of the blind.

Each \$1.50

Dozen \$15.60

No. K210. Jumbo Household Mop Special Value

The mop with three distinct uses. Sell for use as a broom for linoleum or waxed floors — dust mop — wall duster.

Long, soft "oil-free" spun yarn with jumbo spread—10x18 inches. Cadmium plated handle connection spring permits mop head to lie flat on floor and allows easy access to "under-the-furniture" surfaces. The yarn has two most essential qualities—picking up the dust and releasing it when the mop is shaken.

The housewife will want two of these mops—one for her floors and one for the walls. Weight per dozen 21 pounds.

Dozen \$10.80

Super Janitor Mops**Golden Star**

Every idea thought good in mop construction is embodied in these large size mops. The frame is built of heavy coppered wire. A heavy copper plated foundation strengthens the frame and provides bearing space for the swivel action of the handle. A heavy brass ferrule binds the handle to the head. Janitors are pleased with the floor spread and coverage they gain with these mops. They are light to handle even though large. All of the low places can be reached easily. Heads are pre-shrunk duck and are removable for washing. Treated to increase dust gathering characteristics.

Ever-Wear Rubber Door Mats

Beautiful—Colorful—Durable—Efficient—Economic—These mats are assembled from thousands of rubberized cord links. The cutting of the links makes a corrugated surface running parallel to the lug making more cleaning surface. This feature makes a mat that will clean better, dry better, look better and give a non-slip surface, yet soft and resilient. All segments are 8-ply.

The links are assembled on oil-tempered heat-treated steel spring wire that is resilient, yet stiff and has great rust-resisting qualities. The use of this high grade wire prevents the mats from bending or tipping up at corners and ends, a very desirable safety feature.

The mats are very beautiful and colorful, being furnished in three styles of combinations of colors. They are carefully inspected before shipment and are guaranteed to be free from defects of material and manufacture.

Rubber Matting

Plain and Marbleized

Marbleized Corrugated Rubber Matting

Plain Color Corrugated Rubber Matting

"Bull Dog Nu-Tred" Rubber Matting
Black or Maroon

DE LUXE APPEARANCE—Here is a rubber matting rich enough in appearance to grace any type of room. It lifts rubber matting out of the ordinary commercial class and places it on a new and higher plane as a de luxe floor covering.

The parallel stripes give the matting a two-tone effect so that regardless of the angle from which the matting is viewed the appearance is very pleasing and greatly enhances the appearance of any location where it is installed.

LIES FLAT—This matting lies smooth and flat without curling or wrinkling. It has a tough body which gives it the necessary firmness without unnecessary bulk.

LONG LIVED AND EASILY CLEANED—Bull Dog Nu-Tred matting is not only good looking but is long-lived as well. Made of high grade rubber, scientifically fortified to resist oxidation. It will not "bloom" or turn gray but will retain its fresh, original color. Easily cleaned by brushing or washing.

Wherever a long-wearing floor covering of extra fine appearance is required, this is the ideal material to install.

Furnished in 50-yard rolls or in cut lengths. 1/8-inch thickness. Weight, approximately 6 1/2 pounds per square yard.

Width	Black

The Aristocrats of Modern Edgings

For Sink Fronts, Counter Tops and Cabinets, These Shapes Are Unexcelled—Installation Is Many Times Faster Than Any Other Shapes Made
(All Edgings Are Shown in Actual Size)

White Metal Edging
(Illustration Actual Size)

A very decorative, polished White Metal Edging for counter, table and sink tops. Bends around corners without cutting or notching as is necessary with flange type mouldings. For use with any thickness of material on top. Standard or Medium gauge $\frac{1}{2}$ -inch facing strips. Furnished drilled and countersunk for No. 6 screws, and in 12-foot lengths only. Screws extra. Prices do not include facing strips.

	Width of Face	12'-143' Per Ft.	144'-503' Per Ft.	504' Up Per Ft.
No. K1153W.....	$\frac{7}{8}$ "	\$0.36	\$0.34	\$0.32
No. K1053W.....	$1\frac{1}{8}$ "	.36	.34	.32

White Metal Edging
(Illustration Actual Size)

Same type as No. K1153W and No. K1053W but with 1-inch facing strips. Width $1\frac{1}{4}$ inches. For use with any gauge thickness on the top. Drilled and countersunk for No. 6 screws. Furnished in 12-foot lengths only. Screws extra. Prices do not include facing strips.

	Facing Material	12'-143' Per Ft.	144'-503' Per Ft.	504' Up Per Ft.
No. K1150W. Stand. or Med.....		\$0.36	\$0.34	\$0.32

Easy to Install

No. K1153W, No. K1053W and No. K1150W

No flange to contend with, eliminating necessity of rabbeting top or building up with felt to level of flange.

Lip fits down on top edge of top material eliminating any scribing to metal and insuring a perfect fit—giving a drip-proof edge.

TO INSTALL—First round square corners of top to about $1\frac{1}{4}$ -inch radius—cement top material in place and trim material even with edge of top—screw nosing in place and bend around corners as you come to them. Linoleum insert is then cemented into slot, concealing screws.

No. K1052W and No. K1055W

INSTALLED similar to the above except that the top material is cemented on and trimmed even with the edge of the top. Then the nosing is placed with lug resting on top edge of the top material—follow the edge of the lug with point of linoleum knife to form cut-off line. Then remove nosing and cut off the material at this point to allow the lug to fit down on the wood top, giving a perfect fitting, flush joint with the top material.

FACING STRIPS

The prices on these edgings do not include the facing strips. $\frac{5}{8}$ " and 1" linostrips are stocked in our linoleum department. See the floor covering price list for prices.

Golden Star Linoleum Varnish

Made with selected gums and oils that have chemical attraction for the materials used in the manufacture of linoleum. It is flexible, resists the roughest wear, preserves colors and patterns, will not crack or blister, and is not affected by water.

Pint cans, 75c size. Per doz...\$10.00

Quart cans, \$1.25 size. Per doz... 16.00

Golden Star Linoleum Lacquer Water White—Dries in One Hour

Made for the special purpose of preserving linoleums of all kinds as well as printed floor coverings. It is water white and will not discolor the lightest patterns. Dries in one hour, is flexible, resists the roughest wear and is not affected by water or soap. Lengthens the life of linoleum and leaves a glass-like surface that is a pleasure to clean.

Being water-proof and without color Golden Star Linoleum Lacquer is highly recommended for hardwood floors.

Safety-ize Rugs With Ruglock

Prevents slipping. Makes cleaning easier. Keeps the room neat. Adds to the rug's life. Guards against moths. Prevents wrinkling. Is easy to apply. Dries in a few hours. Won't become "sticky." Will not harm the rug.

Ruglock is the new liquid treatment which keeps rugs flat—and prevents their slipping even on the most highly polished floor.

Applied to the back of the rug with an ordinary paint brush, Ruglock dries rapidly to a thin, colorless film. This coating "grips" the floor—prevents skidding. It will not harm the finest rug on most highly polished floor. One quart will cover a 9x12 rug.

	Retail	Each	Dozen
Pint cans.....	\$0.95	\$1.40	\$15.60
Quart cans	1.75	2.60	28.80

For Moth Proofing Liquids and Crystals,
See Page 302

No. KA-1. LePage's Ground Sizing Glue

This amber colored glue is especially adapted for sizing ceilings, plaster walls or wall-board before papering. And if you will follow the simple directions given, you'll have a dependable job. This sizing fills the pores, stops suction, kills stains, neutralizes lime, covers water spots, and gives a firm, hard surface for applying wall paper. You can even apply it as a first coater for kalsomine and flat oil paints to good advantage. Excellent for rug sizing. Uniform 1-lb. package.

Per Lb. \$0.46

No. K101. American Linoleum Lacquer

Transparent as Water

A durable, crystal clear lacquer. Made especially for preserving linoleum and composition floor coverings. It will not discolor or yellow the lightest pattern and is not affected by boiling or soapy water, vinegar, beverages, etc. One coat is usually all that is necessary. Dries in an hour and will withstand extreme wear.

	Retail	Each

Lin-x—The World's Fastest Selling Finish for Linoleums

What a product! Unknown little more than a year ago. Today—the best seller! That's the record of this complex chemical formula which is not a lacquer, not a wax, not an ordinary varnish, but a perfect finish for linoleum. Alcohol, hot water and hot grease proof. Easy to apply. Dries quickly to a high gloss finish. Easy to clean. Preserves, protects, beautifies. The ideal finish for linoleum, woodwork, wood floors, boats, toys, bar tops, lawn furniture and other surfaces requiring a hard, durable surface. Cans lithographed in 3 colors.

"BEST" Allsteel Rug Racks

Like turning the pages of a book, your salesmen swing the arms of this rug rack, displaying the entire rug.

The illustration above shows an actual illustration of arms for 9x12, 8-3x10-6, 7-6x9, 6x9, 4-6x7-6, 36x63 and 27x54 wool rugs.

All steel except the wall and base plates. The outer end of each arm is equipped with a roller guard, preventing the rugs from rubbing together. Arms are hinged on heavy angle steel member securely bolted to the wall or by specially built body type installation, in which the angle steel member is fastened on tubular steel uprights bolted or lag screwed to the floor and ceiling.

The arm brace pivots in a bar supported on a base which rests on the floor. The pivot itself is hinged so that it cannot bind. A locking bar holds the pivots in place and prevents them from getting out of the pivot bar. The arm braces are steel tubing fitted with an adjustable feature that makes it possible to align the arms.

To estimate the number of arms which can be put into a certain space figure 12½-inch space for every 5 arms, plus the extension of the arms at each end of space when rack is open for showing rugs. The extension of 9-foot arms is 7 feet, and of 12-foot arms is 9 feet.

"BEST" Allsteel Rug Racks can be made with any number of arms, but the following list will show you a few typical sizes:

No. Arms	No. Rugs	9-FOOT ARMS		36-INCH ARMS	
		Length of Pivot Bar	Approximate Wt. of Rack	Length of Pivot Bar	Approximate Wt. of Rack
15	30	3'-1½"	624 lbs.		
20	40	4'-2"	855 lbs.	3'-4"	220 lbs.
25	50	5'-2½"	930 lbs.	4'-2"	275 lbs.
30	60	6'-3"	1,025 lbs.	5'-0"	330 lbs.
35	70	7'-3½"	1,279 lbs.	5'-10"	383 lbs.
40	80	8'-4"	1,460 lbs.	6'-8"	440 lbs.
45	90	9'-4½"	1,644 lbs.		
50	100	10'-5"	1,827 lbs.	8'-4"	550 lbs.
60	120	12'-6"	2,192 lbs.	10'-0"	660 lbs.

Size Arms	Size Rug	Wall Type Installation Per Arm	Body Type Installation Per Arm
27-inch	27x54	\$ 3.50

The above sizes are sold in units of 20 arms or more.

6 -foot	6x9	9.00	\$10.00
7½-foot	7-6x9	10.00	11.00
8¼-foot	8-3x10-6	11.00	12.00
9 -foot	9x12	11.00	12.00
10½-foot	10-6x12, 8-3x10-6	11.80	12.80
11¼-foot	11-3x12	12.00	13.00
12 -foot	12x12, 12x15, 9x12	12.00	13.00

The above sizes are sold in units of 15 arms or more.
All prices F. O. B. Illinois factory.

Best Display Racks

"Best" Displays Multiply Sales and Increase Profits

Displayed on Modern Allsteel Racks, each pattern may be examined, compared and selected quickly and easily.

Just as you appreciate this thoughtful preparation for your buying visit, so do your customers "say it with dollars" when in your store you employ modern methods to make buying easier and pleasanter for everyone concerned.

Generous space is left for display of other merchandise.

"BEST" Linoleum Racks

Here is a salesman who is on duty every minute of the day, selling linoleum no matter what you may be doing at the time. This rack facilitates handling and prevents breaking of linoleum. A space-saving way to display linoleum.

Made entirely of steel for long, easy running service. Finished in attractive Brown enamel to harmonize with other store furnishings.

Made in two styles: the JUNIOR Rack, holding five rolls, and the SENIOR Rack, holding from five to nine rolls. The Junior Rack is considerably less expensive and is made in three sizes, to accommodate 8/4, 12/4 or 16/4 linoleum. The Senior is made so that the rack accommodates nine rollers. If the dealer's present stock does not justify a rack to carry nine rolls, he may install a Senior Rack and show as few as five rolls. At any time he may increase the number of rolls up to nine by bolting on the roller bearing brackets to the steel end frames and lay the tubes in the brackets. The Senior is also made in three sizes, to accommodate 8/4, 12/4 or 16/4 linoleum.

"BEST" LINOLEUM TRUCKS are furnished with each rack, one with each 8/4 rack and two with each 12/4 or 16/4 rack.

Senior Racks

Height, 5 feet 7½ inches. Depth, 3 feet.

No.	Capacity	Linoleum Width	Weight	Each
No. KN56	5 rolls	8/4 (6')	355 lbs.	\$ 95.00
